Esteemed customers, shareholders and employees,

Having espoused it as its primary principle to create demand rather than fulfilling it and to lead the market it creates since its incorporation in 1958, Çelebi Ground Handling has successfully remained the industry’s leader over this long period of time. Underpinning this success are the dynamic corporate culture capable of taking action quickly according to evolving market conditions, the ability to constantly monitor and embrace the innovations in the industry, and proactive customer relations developed in the light of a customer-oriented approach to service.

2016 went down in the records as an active and fluctuating year.

Before presenting our annual report representing the 2016 performance of Çelebi Ground Handling for your review, we would like touch upon the current developments in the world economy in the reporting period.

The Fed’s anticipated lift-off decision came in December.

Particularly the global financial crisis of 2008 bared how powerful the steering influence of the preferred policies of the US Federal Reserve (the Fed) can be upon the course of the world economy. The same situation was experienced in the aftermath of the Fed’s FOMC (Federal Open Market Committee) meeting held on 14 December 2016, where policy rate was hiked by 0.50 basis points and projections were revised. Putting aside the lift-off decision that had long been priced by the markets, the embedded surprise was manifested in the Fed’s revised economic projection for 2017. The Fed updated the targeted interest rate for year-end 2017 upwards by 25 basis points to 1.375% and made it public for the international arena that it could resort to three rate hikes instead of two.

The markets were quick to react to the Fed’s altered projections for 2017, while long-term interest rates took an upturn, the US dollar rapidly appreciated in the world markets, particularly against the currencies of emerging countries.

Inflation expectations grew upon election of Donald Trump as the US president.

Having drawn the attention with his rhetoric and promises during the election campaign, Trump’s win in the November election led to fluctuations and concerns on a global scale, even if they were short-lived.

While the economy policies he will pursue remain as burning questions, Donald Trump’s decisions may well affect the future of the US economy, and are also prone to be telling on the decisions the Fed will adopt in 2017 and thereafter, and therefore on global economy and trade. The future growth rate of the US will be represessed, if Trump, who is talking about reassessing commercial relations particularly with Mexico and China and of exiting international conventions such as NAFTA, turns to phase of stagnation in the worldwide trade and global economy via foreign trade and financial markets.

In January 2017, the euro area inflation went up to 1.8%.

For the first time since 2008 that marked the onset of the global crisis, the euro area economy attained a growth rate that is higher than that of the US economy in 2016. While the US economy expanded by 1.6%, the euro area ended the year with a growth rate of 1.7%.

Despite the structural issues of the Italian banking system, the long-going financial crisis in Greece and the UK referendum outcome pointing at that country’s exiting the EU membership (Brexit), economic activity in the euro area remained stable and recovery continued.

Also the annual inflation carried on with its upturn in line with the targets of the European Central Bank (ECB) in the euro area. In January 2017 inflation came to its highest of the past four years with 1.8%. According to Eurostat data released in December 2016, seasonally adjusted unemployment also went down to its lowest level since July 2009.

With 3.2% and 4%, respectively, Spain and Ireland lent strong support to the 2016 performance of the euro area that has been on a 14-quarter growth streak. Designated as the most important economic power of the area, Germany’s growth gained momentum and came to 1.9%.

The IMF preserved its growth estimates for the world economy.

In the World Economic Outlook update published on 16 January 2017, the IMF kept its forecasts for the world economy unchanged. In the same report, however, the IMF revised its 2017 and 2018 projections for developed countries by 0.1 and 0.2 points, respectively.

0.4-point upgrade for the 2018 US economic growth projection by the IMF is noteworthy, which cited the growth-focused policies of the Trump administration as the main reason for its revised growth projection for the US economy. The IMF underlined that economic activity lost pace, even if somewhat, in emerging countries and announced in October 2016 that it is anticipating a weaker-than-expected growth performance. The same report increased China’s 2017 growth projection from 6.2% to 6.5% in line with the anticipated incentives.

Çelebi Ground Handling successfully minimized the effects of economic and industrial challenges thanks to its strong prediction ability and accurate strategies.

In the twelve months to end-December 2016, our Company serviced 167,518 flights in Turkey, which figure represents a 20.2% decrease YoY (January-December 2015: 209,986 flights in total). The discontinuation of the ramp service provided to Pegasus Airlines at Sabiha Gökçen Airport as of 31 May 2016 was among the factors that brought about this reduction. Excluding the number of Pegasus Airlines’ flights serviced in the relevant period, the decrease in the number of total flights emerges as 5.9% as compared with 2015 (January-December 2016: 263,335 flights, January-December 2015: 259,919: Flights).

Having booked TL 709,524,691 in consolidated net turnover, down by 3.11% as compared with the 2015 figure of TL 732,278,323, Çelebi Ground Handling registered consolidated gross profit of TL 166,409,227, down by 22.83% in 2016 (2015: TL 215,649,774). The Company’s operating profit, on the other hand, was registered as TL 58,925,319 (2015 operating profit: TL 121,272,860).

We have sustained the stable performance of our overseas operations and proven once again that we are a global actor. Çelebi Ground Handling adeptly reflects the know-how, experience and service quality it possesses in the India market where it has been active for many years. Our subsidiary, Çelebi Ground Handling Delhi Private Limited that started providing service at the Delhi Indira Gandhi International Airport from June 2016 opened its second station in this country in 2015, and started activities at Sardar Vallabhbhai Patel International Airport in Ahmedabad, as well.

In the January-December 2015 period, Çelebi Ground Handling Delhi Private Limited serviced 8,327 aircraft at Delhi and Ahmedabad airports, and increased the number of serviced flights to 11,809 in the 12 months to end-2016, with a remarkable growth rate of 41.82%. Having renewed its contracts with the Saudi Arabian Airlines and Etihad Cargo in the last quarter of 2016, Çelebi earned the right to offer service to these airlines for another three years.

Located in the Delhi Indira Gandhi International Airport in India, our subsidiary Çelebi Delhi Cargo Terminal Management India Pvt. Ltd. has been providing cargo handling and handling services on an area of 77,000 m² since November 2009. The cargo handling quantity went up by 1.3% from 395,853 tons in 2015 to 401,833 tons at end-2016.

Our subsidiary that started providing service at the Mumbai (Bombay) Chhatrapati Shivaji International Airport in India in July 2009, Çelebi NAS serviced 20,408 flights in 2015. The number of flights that went up to 27,149 in 2016 indicates at 33.03% growth. Having renewed its contracts with Saudi Arabian Airlines and Etihad Cargo in the last quarter of 2016, Çelebi NAS earned entitlement to offer service to these airlines for another three years.

Operating in Hungary as our Company’s first venture abroad, Çelebi Ground Handling Hungary serviced 19,576 flights during 2015 and topped this figure by 4% to 20,570 in 2016. Our Company started offering service to Air Canada from June 2016.

After Çelebi Ground Handling Hungary began operating out of its new warehouse located outside the airport in January 2011, the company began offering handling for land haulage and air cargo of Qatar Cargo in the reporting period. In the same period, Silkway Cargo ended its flights. The cargo handling service provided went up by 10.8% from 48,419 tons in 2015 to 53,680 tons in 2016.

MESSAGE FROM THE BOARD OF DIRECTORS
MESSAGE FROM THE BOARD OF DIRECTORS

Our second representative in Europe, Celebi Cargo GmbH started operations on 10 January 2011 to offer air cargo storage and handling services in the storage/warehouse facilities in the International Frankfurt Airport Cargo City. While the services rendered during 2015 had reached 263,202 tons, the same suffered a 21.85% decrease in the 12 months to end-2016 and total cargo handling went down to 205,704 tons. The main reasons underlying the reduced quantity of cargo handled include the expiration of the contract with Qatar Airways on 4 July 2016, reduced quantity of cargo transported by Saudi Arabian Airlines as compared with the previous year and the expiration of the contract with the said airline on 8 November 2016.

We have set our roadmap that will carry us to our future growth and profitability targets. Throughout its corporate history, Celebi has successfully survived and created value during times of volatility, as well as through the growth phases of the economy. Our market experience and know-how serve as our strongest foothold of our ability to ensure sustainable growth. This experience and know-how, coupled with our prediction skill, guide us to accurately manage risk in diverse countries and business lines where we operate and to grow our shareholders’ equity, while the initiatives we realize in our business processes ready us for the current economic environment and sharpen our competitive edges.

Based on its awareness that our industry moves forward by the day, our Company possesses a vision that aims to render change continuous and manage it. Our primary goals include being a strategy-focused organization, creating a business excellence model that relies on total quality management concept, ensuring that this model is customer-driven, enhancing employee satisfaction and productivity, and generating increased revenues.

I would like to extend my gratitude to our shareholders, customers and business partners for their support, and to all Celebi employees for all that they contribute to our Company.

Very truly yours,

Can Çelebioğlu
Chairman

The members of the Board of Directors have been elected for one year at the Ordinary General Meeting convened on 20 April 2016 until the next Ordinary General Meeting.

According to the provisions of Corporate Governance Principles and the Company’s articles of incorporation, İlter Turan and Feyzi Onur Koca, whose candidacy for independent membership on the Board of Directors has been deemed appropriate, have been elected as Independent Board Members to serve a term of office of 1 (one) year (for the period between the two Ordinary General Meetings).

The members of our Company’s Board of Directors are nominated and elected from among individuals possessing the high level of knowledge and skills, the qualifications, specific experience and background in accordance with the Company’s articles of incorporation. All our Board members have the capability to read and analyze financial statements and reports, as well as the necessary basic knowledge of legal regulations governing the Company in respect of its long-term acts and transactions, and have the means and commitment to participate in all Board of Directors meetings planned for the relevant fiscal year.
According to “Article 8- Representing and Binding the Company” of the Company’s articles of incorporation, the Company is administered and externally represented by the Board of Directors. Pursuant to Article 367 of the Turkish Commercial Code (TCC), the Board of Directors may delegate management, in part or in whole (excluding the Non-Delegable Duties and Powers of the Board of Directors as stipulated by Article 375 of the TCC), to one or more Board of Directors members or third parties. The Board of Directors may also delegate the power to represent, jointly or individually, to one or more senior executives of the Company who are not members of the Board under Article 370 of the TCC. The individuals with the power to represent and bind the Company and the ways they may do so are determined by the Board and duly registered and announced. In order for any documents issued by the Company or for any contracts that are entered into to be valid, they must be signed, below the Company’s legal name, by an individual or by individuals authorized to do so by the Board of Directors. Pursuant to Article 1526 of the TCC, the transactions carried out by the Company may be done so with the secure electronic signatures of the individuals possessing the power to represent.

The authorities and responsibilities of our Company’s Board members and managers are stated in signature circular IX setting down the powers to represent and bind the Company that was registered by the İstanbul Trade Registry on 18 August 2015 and announced as having been registered in issue 8890 of the Turkish Trade Registry Gazette dated 24 August 2015.

As per the assignment of duties among the Board Members elected at the Ordinary General Meeting of 20 April 2016, the Company’s Board of Directors decided to elect Mr. Can Çelebioğlu as the Chairman and Mr. Isak Antkica as Vice Chairman of the Board.

At the Ordinary General Meeting held on 20 April 2016, the shareholders having management control over the Company, members of the Board of Directors, senior executives and their spouses and relatives by blood and marriage unto the second degree have been authorized, as per Article 395 of the Turkish Commercial Code (TCC), to enter into transactions that are of a nature that might lead to conflict of interest with the Company or its subsidiaries, and deal with the Company on their own or others’ behalf; no transactions took place within the scope of the said authorization granted during the reporting period.

Auditors

In a resolution passed on 25 March 2016, the Board of Directors voted to recommend the appointment of Güney Bağımız Denetim ve Serbest Muhasebeci Mali Müşavirlik Anonim Şirketi (Ernst & Young) as the Company’s independent auditor to be charged with independently auditing the Company’s consolidated financial statements for 2016 and 2017 in compliance with Turkish Commercial Code and Capital Markets Board rules and regulations pertaining to the independent auditing of such statements prior to their public disclosure. At the annual general meeting of the Company held on 20 April 2016, a majority of shareholders approved the appointment of Ernst & Young as the Company’s independent auditor.

Corporate Governance, Audit, and Early Detection of Risk Committees

Of those who were elected to seats on the Board of Directors at the 20 April 2016 annual general meeting of the Company, it has been decided at the Board of Directors meeting dated 21 April 2016, to elect Feyzi Onur Koca and İlter Turan as members of the Audit Committee, to elect Mehmet Yağız Çekin and Feyzi Onur Koca as members of the Corporate Governance Committee, and to elect Turay Kutlu and İltar Turan as members of the Risk Detection Committee, within the framework both of the applicable clause of Capital Markets Board Communiqué X.22 Concerning Independent Auditing Standards in Capital Markets and of the applicable provisions of Capital Markets Board Corporate Governance Communiqué II-371.

Selection and Placement

Recruitment Process/Creation of a Group-wide Pool of Candidates

The main principle in recruitment and placement is obtaining the human resource needs in a most efficient and most rapid way with the principle of “the right person for the right job”. In this context the personnel needs are determined in accordance with the Company’s goals and strategies in the frame of human resources planning, and the profile that the position needs is stated on the ground of the job definition and competencies. Human Resources personnel control whether the vacancy is placed in the budget when the request for a new employee comes. The position planning has to be conducted carefully, with special attention to efficiency. The Human Resources Department and Division Managers share the responsibility of recruiting personnel who are suitable for Company mission and vision, who can perform the responsibilities of the job, who can adapt to the work conditions, who have the required competencies, and who at the least have the qualifications the job necessitates. Giving the opportunities primarily to all Çelebi employees for the jobs at the Company and Group companies suitable for their career development and potential is our recruiting policy. In the frame of this policy, a candidate information bank has been constituted in our Group companies and each day this bank becomes a databank all our Group companies can use. The program used in this purpose in the Holding structure is planned to turn into an integrated program connected to the other human resources processes.
Candidate Databank

The candidate databank includes the applications of the potential candidates that Çelebi employees suggest, candidates directly applying by sending CVs or filling the application form, people responding to an advertisement or announcement, applications collected during career days at various universities, applications from private training courses and education establishments with whom we plan to develop cooperation, and digital applications via electronic environment. The priority sequence followed in recruitment and selecting employees is:

- The employees apply to internal announcement,
- Candidates suggested by Çelebi personnel,
- Candidates who has applied directly or to an advertisement before,
- Candidates called by advertisement,
- Candidates directed to the Group by outsourcing consultancy firms.

Success Factors Recruitment Module was introduced, and a portal for posting vacant positions and allowing candidates to create profiles was designed on the Çelebi corporate website. This represents the initiation of the steps for the creation of a Company database on the recruitment side.

All recruitment processes are performed in accordance to the recruitment and placement regulations by the human resources departments of the affiliated companies.

Also foreign languages, general skills tests and personality profiles prepared by the professional organizations for candidate selection are used. Reference control is conducted for the candidates who are found suitable for the job.

Orientation

Newly-hired employees are put through an orientation program in which they are informed about the Company’s mission, vision, principles, and policies as well as about Çelebi Group companies, their areas of activity, and their working conditions.

Performance Management

Performance Evaluation

Performance evaluation system is carried out in order to ensure the existence of an environment suitable for the attainment of Company goals; identify and improve competency levels and priorities; support promotion, rotation, and career planning functions; strengthen relationships between subordinate and superior; develop management competencies in managers; and speed up the flow of information at all levels provide through feedback.

Once a year all our employees are given a performance evaluation by our Performance Evaluation System that has been designed to ensure that evaluations are made according to objective criteria defined according to required competencies. Objective-based evaluation criteria have been included in the performance evaluation system in addition to the performance-based evaluations to which is assistant managers/supervisors and senior managers are subject.

The Company implements 360-degree performance management system, which serves to transform performance appraisals into a more objective system where not only managers evaluate their subordinates, but different stakeholders evaluate one another. In a step expanding the coverage of the system, supervisors at stations were also started to be evaluated in the 360-degree performance management system in 2015. The implementation continued during 2016 as well.

Our Company uses the “SAP Performance Appraisal System” which enables electronic conduct of the performance assessment implementation. Theoretical and practical training sessions for the Performance Appraisal System have been offered in 2016, as they were in previous years, and the system continues to be employed successfully.

Rewarding Performance

Based on the results of the annual performance appraisal, employees with outstanding performances are rewarded also in 2016 as previous years, with bonuses corresponding to a certain ratio of their annual salaries.

Career Management

The objective of career planning has been to create a candidate pool from internal sources and enable placement of candidates from that pool to vacant positions at Çelebi Ground Handling as well as synchronizing the employees’ and the Company’s expectations. Also in 2016, senior executives were trained and assigned for ground handling operation in Mumbai and Delhi in India, as well as in Hungary, Frankfurt and Austria. These executives have been assigned to critical roles.

In this context in all our companies:

- Career maps are designed in accordance with the competency and qualification scales drawn formerly and trainings and rotations at each career step are continuously followed,
- For critical positions a back-up strategy is being developed.

With a view to vesting the career management function in a more systematic structure, “Improvement Committees” and “Talent Management” are in place and operate successfully at the Headquaters and our stations.

These committees hold annual meetings to:

- ensure a realistic succession plan,
- identify eligible employees for critical roles,
- determine, develop and follow-up employees with a high-potential,
- review and control employee profile.

From the last quarter of 2016, work on modules was initiated to provide corporate memory and active database via the Success Factors in relation to Career and Talent Management.

The employees are offered promotion/rotation opportunities within the frame of the criteria set for promotions from within. Position requirements are first announced to Çelebi Ground Handling employees, who are given priority in assessment.

The first implementations of the deliverables of the “Talent Management” project were started in the first half of 2016 and communication was carried out with Company employees. During 2016, progress and high potential pools were created in relation to the new system particularly for the stations, and development programs therefor were enforced.

The rates of promotion from within the Company were 90.91% in 2013, 92% in 2014 and 71% in 2015. The rate of promotion in January-December 2016 was 72%.

Training

Çelebi sets different levels of studies related to training and development programs. These parameters are intended to help determine and improve the areas to be developed, especially related to knowledge, skills and behavioral characteristics which all Çelebi jobs necessitate, and in order to prepare the employees for future responsibilities.

The Human Resources Department develops annual plans for personal and professional development training programs that are determined on a need basis, as well as compulsory trainings identified by the Directorate General of Civil Aviation (DGCA).

Personal and professional development trainings are determined for staff members proposed at the Performance Appraisal Outcomes and Development Panel conducted annually across the Company, and then incorporated in the plan.

Training time per employee was 11.43 days in the January-December 2016 period (2015: 13.04 days).

All training reports are accessible via the SAP system. Training budget planning and reporting are performed periodically by the HR on the basis of these records.
Stations are provided with access to all training documents, technical training modules, exams, Company guidelines/ procedures and regulations via E-forms.

All operational technical training programs are given by internal trainers. All documents, training modules and tests used for training are updated and announced biennially in a refreshing session held with internal trainers.

Agreements are made with professional training consultancy firms for personal and professional development training (Presentation Techniques, Teamwork, Management Skills, etc.)

Ongoing since 2015, the first phase of the e-learning project that will provide remote access to the compulsory refresher training programs covered in the training instructions of the Directorate General of Civil Aviation (DGCA) will be brought to completion as of November 2016. Ramp Safety and Apron Rules Refresher Training, for which the approval of the DGCA has been obtained, will be made available to employees as an e-learning program. Work is in progress at full speed for the platform, which will offer personal development training, as well as operational refresher trainings.

Compensation Management

Within the frame of the compensation system at Çelebi Ground Handling, a remuneration scale has been formulated in line with the Company’s vision and objectives, based on the prevailing market conditions and the developments in the aviation industry, which is designed to ensure consistency across the Company and reflected the realities mentioned above. If two people are doing the same job, in other words, if there is no difference in the value of their work in terms of content, time, resources and position profile, etc., the value of the job done is the same even if the personal traits and skills of the two people are different.

Headquarters remuneration scale is formed periodically, by making a comparison with the data obtained from salary survey companies and by including the results from these surveys as well. These criteria are taken as basis also when determining the remunerations of senior executives taking place in the Headquarters remuneration scale.

Salaries are determined according to the titles in the organizational structure, but are based on a tariff in connection with the magnitudes of stations and restricted seniority. Salaries are updated annually making use of market surveys.

Performance bears an impact upon an employee’s income in the form of a year-end bonus paid only in the case of performance above expectations.

An employee who gets a passing grade in the exam given for positions that compel knowledge of a foreign language receives a foreign language allowance in addition to the current base salary. Apart from foreign language allowance, drivers are paid vehicle bonuses depending on the type of vehicle they drive.

Corporate Development Activities

Employee Satisfaction Practices

The Company measures the level of employee satisfaction and loyalty, organizes meetings at branches and units, and devises action plans in an effort to boost employee satisfaction and loyalty based on which related efforts are carried out.

Regulation Studies

Existing HR and training regulations that are currently in use are regularly reviewed and revised to ensure that they satisfy needs. In addition, joint projects are also carried out to develop new regulations for operational or other issues as circumstances dictate.

Organization Studies

Organizational structures are reviewed, revised, and standardized to maximize their effectiveness and ability to satisfy needs. Particular attention is given to ensuring that any organizational changes are tracked and made known throughout the Company. Determining hierarchical levels and revising roles in light of existing conditions is a prime consideration in all HR policies.

Communication

For the purposes of fostering a participatory style of management and providing all employees secure and safe working conditions, personnel are kept informed about issues concerning the Company’s financial standing, compensation, career development, training, health, and similar at meetings on every occasion where it is possible to convey such messages. Feedback from personnel in the form of attitudes, opinions, suggestions, and complaints are used as input in subsequent activities. Aiming to secure the involvement of all Company employees so as to allow more efficient assessment and utilization of employee opinions, the suggestion development system continued to be used successfully during 2016.

Employee Safety

Our Company has a management system that provides employees with a safe and healthy working environment, and carries out risk assessments that identify the threats and risks to which employees may be exposed. The system is also engaged in activities to reduce risk/threat levels through measures that are to be taken, complies with the requirements of the labor law, develops and implements programs to achieve occupational health and safety objectives, and continuously monitors occupational health and safety performance. In addition, the Company’s 30 stations and the headquarters have been certified with OHSAS 18001 certification.

Social Activities

For several years now, our employees’ children visit their parents’ work places and treat themselves to a fun day filled with various activities organized at the stations in honor of April 23rd National Sovereignty and Children’s Day. In 2015, the scope of the event extended to the Headquarters.

Events similar to motivational meetings organized for our employees at stations are started to be held at the Headquarters as well. In another social activity launched for the Headquarters employees in 2015 in addition to celebratory gatherings, employees get together with the HR in biweekly organizations. The series “Coffee is a Mere Excuse to Enjoy a Great Chat with the HR” provides the setting for the employees to chat with the HR.

At the same time, Çelebi anniversary and seniority-plaque ceremonies began to be conducted to recognize whole-multiples of five years’ service with the Company in honor of long-serving station and headquarters personnel, which was repeated in 2015 paving the way for an annual event. The seniority-plaque ceremonies were organized at the headquarters and stations once again in 2016. The ceremonies also give employees a chance to show off their performing talents.

Çelebise is an in-house publication for Çelebi personnel. Every issue contains features such as “Çelebi Traveler”, in which employees tell about a trip or vacation they have taken, as well as articles in which employees describe their hobbies and similar interests. The magazine plans to continue running such features in its future issues.

II- FINANCIAL RIGHTS PROVIDED TO THE MEMBERS OF THE GOVERNING BODY AND SENIOR MANAGEMENT

At the 20 April 2016 annual general meeting of the Company, shareholders approved the payment of a monthly fee/honorarium of TL 5,000 to the independent members of the Company’s board and also voted not to pay any fees or other honoraria to board members who are elected to represent Class A and Class B shareholders. Payments were made to the Company’s independent directors in 2016 pursuant to this resolution.

No member of the Board of Directors has any outstanding obligations towards the Company that were carried forward from 2015. No member of the Board of Directors was given a loan or paid an advance by the Company in 2016. As of 31 December 2016, the Company was not owed anything (whether as an advance paid or otherwise) by any member of the Board of Directors.

No Company manager has any outstanding obligations towards the Company that were carried forward from 2015. Salary advances paid to Company managers in 2016 totaled TL 65,000. As of 31 December 2016, the Company was owed TL 20,505 in salary advances by its managers.

There are no loans made by the Company to its Board members or managers whose terms have been extended or otherwise improved, no sums have been lent to them as personal loans through third parties; neither have they been granted any form of surety such as guarantees etc. on their behalf.
III- RESEARCH AND DEVELOPMENT ACTIVITIES

5. OPERATIONAL EFFICIENCY

Introduced at the Company to help achieve increased efficiency and zero-error planning of operations, the ‘Resource Planning, Work Schedule Generation and Real-Time Control System (Inform-GroundStar)’ continues to be used successfully at Istanbul, Antalya, and Sabiha Gökçen stations. Training programs were organized for Inform users for the system upgrade and the new version is slated for introduction at the stations as of 1 January 2017.

“Operational Teams Restructuring” initiated within 2016 is intended to measure operation times so as to update service standards, and to reorganize the duties and responsibilities of operational personnel, as well as their business conduct, in a manner to secure increased operational efficiency.

With its installation finalized, the E-SCF (Electronic Service Charge Form) project has been completed as at year-end 2015 and was started to be used actively during 2016.

In order to improve operational efficiency, some of the ramp personnel at our stations were hired on a part-time basis; following suit of 2015, the practice was carried out successfully also in 2016.

The Management Cockpit project was launched for ensuring regular online monitoring of operational efficiency and performance indicators by the station, and it is planned to be finalized by year-end.

Within the frame of the Global ERP project, it is aimed to update and improve the implementation and reporting processes for enhancing the technical system infrastructure and increasing employee performance via the SAP software; the project is targeted to go live by early 2017.

An “Equipment Management System” project was initiated in 2014 with the aim of making more productive use of equipment and of achieving economies in costs such as fuel, scheduling, time, and maintenance by managing the equipment park more effectively. With its first phase completed during 2015, the project continued in 2016.

Our Company adopts the quality systems preferred in the civil aviation world, and employs AHS 1000 and IATA AHM 804 measurement systems. These systems determine and report measurable quality criteria, and serve to enable more efficient operation and increased operational productivity of airliners and ground handlers. These systems allow identification of the problematic step along the service process and taking necessary corrective action accordingly. Customer dissatisfaction arising during the service is monitored at all stations and necessary action and improvement steps are taken immediately for the customer complaints received. In addition, regular internal audits are conducted semi-annually by the Quality Department at all of our stations in an effort to prevent possible customer dissatisfaction, and corrective actions in relation to negative aspects identified by these audits are carried out by the stations.

IV- THE COMPANY’S ACTIVITIES AND MATERIAL DEVELOPMENTS IN ACTIVITIES

6. THE RELEVANT SECTOR, 2016 ACTIVITIES AND PERFORMANCE

The World and Turkish Economy in 2016

In the World...

Oil prices...

At its ordinary meeting of 30 November 2016, OAPEC passed a decision to reduce oil output in order to rebalance the oil market, and announced that the decision would be effective from January 2017. The support extended to this decision from non-member oil exporting countries led by Russia, besides its ratification by 14 OAPEC-member countries led to an uptick in oil prices in the aftermath of the meeting. Having floated in the USD 40-50 interval in the third quarter of 2016, crude oil prices exceeded the USD 50 mark in the last quarter of the year.

Inflation and Growth...

Increased inflation observed in developed countries in the fourth quarter stemmed from the economic activity outlook that represented a more positive performance and increased oil prices. The US dollar tended to appreciate in parallel with the expansionary economy policies intended to be implemented following the US presidential election in November 2016 and the expectations regarding the Fed’s policy steps. While it is possible to witness a limited increase in the inflation rates of the euro area, as well, in line with the moderate rise in energy prices, Japan is anticipated to see an inflation rate lagging behind the target for some more time in the medium term. On the other hand, it is projected that inflation in the UK will remain below the targeted 2% in 2017 and 2018 and that it will approach the target thereafter because of the depreciation of the British pound due to the vagueness surrounding the relationships between the UK and the EU following the Brexit. The factors that could potentially pose an upward risk for global inflation are considered to include possible rises in commodity prices and primarily in oil prices; imminent expansionary economy policies in the US; potential value losses to be suffered by the local currencies of emerging countries in connection with the expectations regarding the Fed’s decision concerning rates, and restrictive decisions about foreign trade on a global scale.

Following the US presidential election held in November 2016, uncertainties relating to global economy persisted at an increasing extent. In that period, long-term interest rates in developed countries went up, while capital flows to emerging countries weakened. Increased possibility of the enforcement of protective policies by the US following the elections poses a downside risk upon growth and employment rates of emerging countries. In addition, strengthened possibility of the implementation of expansionary fiscal policy by the US might lead to an acceleration of rate hikes by the Fed and in turn, further tightening of financial terms for emerging countries.

In Turkey...

Exchange Rates...

In the last quarter of 2016, exchange rate volatilities of emerging country currencies followed a fluctuating course. The exchange rates showed a rapid rise due to deteriorated risk perceptions of emerging countries in the aftermath of the US presidential election. Currencies of emerging countries depreciated significantly against the US dollar with the effect of the uncertainties in relation to global economy and of the increased interest rates in developed countries. The Turkish currency, on the other hand, decoupled negatively from other emerging country currencies because of increased domestic vagueness, geopolitical developments and higher energy prices.

Averaging 2.72 in January-December 2015, the US dollar went up to the order of 3.02 in the same period of 2016. Similarly, the US dollar that euro went up from an average of 3.02 during 2015 to 3.34 on average at year-end 2016. The USD/TLR parity, on the other hand, averaged 1.10 at year-end 2016, while it was 1.11 on average at year-end 2015. According to the CPI-based real effective exchange rate index (2003=100) that measures the value of the Turkish lira against other currencies, the index value, which was 97.49 at year-end 2015, was registered as 92.13 at year-end 2016.

Inflation...

At the end of 2016, consumer inflation went up by 1.25 points on a quarterly basis to 8.53%. Exhibiting a gradually slowing tendency after July, consumer inflation slid down to 7% in November, only to hike in December and come to a level above the uncertainty interval around the inflation target. This was driven by the depreciated Turkish lira, adjustments in taxes, and partial rise in food prices. 8.81% in the January-December 2015 period, inflation (CPI) showed a gradual increase in the tendency after July, consumer inflation slid down to 7% in November, only to hike in December and come to a level above the uncertainty interval around the inflation target. This was driven by the depreciated Turkish lira, adjustments in taxes, and partial rise in food prices. 8.81% in the January-December 2015 period, inflation (CPI) showed a gradual increase in the

Civil Aviation Industry

In the world...

According to year-end 2016 figures published by the International Air Transport Association (IATA), international passenger traffic (revenue passenger kilometers) in 2016 showed a year-on-year rise of 6.3% in terms of demand; this strong rise was even above the past 10 year’s average of 5.5%. Cargo traffic demand saw a year-on-year growth of 3.8%. Just like the one in passenger traffic, this increase also outdid the average rise of the past 5 years of 2%.

During 2016, seat capacity grew by 6.2% and average occupancy rate was up by 0.1 point to 80.5%.

In 2016, air connectivity expanded with the addition of over 700 new destinations, and in turn, 3.7 billion passengers traveled safely. The challenge facing the states at this point is to realize the necessary infrastructural, legal and tax regulations in cooperation with the aviation industry in order to respond to this demand.
Highlights of 2016 on a regional basis included the following:

- Asia-Pacific showed a record growth of 8.3% over 2015, which is the second best interregional rise. 7.7% enlargement in capacity led the average rate of occupied seats to inch up by 0.4% to 78.6%.
- Traffic across Europe increased by 4.8%. European carriers compensated the slight decline in the first half of the year particularly with the rise in the second half of the year.
- With 11.8% rate of increase, the Middle East has claimed the highest growth regionally for the fifth year. The capacity grew by 13.7% whereas the rate of occupied seats eroded by 1.3% and declined to 74.7%.
- The demand in North America, on the other hand, stood at a mere 2.6%, while capacity grew by 3.3% and the rate of occupied seats was registered as 81.3%.
- 7.4% growth in Latin America originated from the increased demand for international flights. Capacity was up 4.8% and the rate of occupied seats went up by 1.9% to 81.3%.
- Airlines in the Africa region showed their best performance since 2012 and recorded a growth of 7.4%, whereas capacity remained flat and was registered as 67.7%.

In terms of domestic flights, demand and capacity went up by 5.7% and 5.1%, respectively, and the rate of occupied seats was 82.2%. All domestic markets except Brazil showed rise, whereas India and China have emerged as the top performing markets.

In the cargo sector, there was a year-on growth of 3.8% (ton-kilometers). This rate is almost double the 2% rate of increase observed in the past two years. On the other hand, capacity went up by 5.3%.

All markets in the cargo sector expanded save for the Latin America region. Particularly, European carriers accounted for half of the increase in total demand.

With a growth rate of 7.6%, European carriers secured the highest growth among regions. This is proportional to the increased exports particularly ex-Germany and the weakness of Euro.

Save for the record 4.2% decline in Latin America, which has been going on for two years, cargo demand went up in all regions. Africa secured a remarkable increase, when its increase of 13.1% is compared with 4.5% decline in 2015. Asia-Pacific, on the other hand, has taken place among regions showing increased demand for cargo flights with a rise of 2.1%.

In Turkey...

While domestic commercial air traffic increased by 6%, and international commercial air traffic decreased by 7.4% in Turkey in 2016, the overall commercial air traffic was down by 0.2%. During the reporting period, passenger traffic showed 5.8% increase in domestic lines versus 15.5% decrease in international lines. The main reasons for the increases in domestic commercial traffic can be cited as the steadily growing demand for seats on domestic lines that got underway when that market was thrown open, growth strategy of Turkish Airlines, and the surge in transit traffic associated with it. Decline in international commercial and passenger traffic, however, arose from the inception of visa requirement for countries including Libya and Iraq, negative effect of the Russia-originated flights as compared with end-December 2015 due to the political relations between Turkey and Russia, cancelled flights because of the terrorist attack at Ataturk Airport at the end of June, and the implications of the failed coup d’état attempt of July 15th upon the industry.

2016 Activities and Performance

A total of 167,518 flights were serviced by the Company in the Turkish market in 2016, corresponding to a 20.2% YoY decrease over the 2015 figure of 209,986 flights. During 2016, ramp service provided to Pegasus Airlines ended on 31 May 2016. Excluding the number of Pegasus Airlines’ flights serviced in the relevant period, the decrease in the number of total flights emerges as 5.9% as compared with 2015 (January-December 2015 SAW-PGT: 26,335 flights; January-December 2015 SAW-PGT 59,919 flights).

Celebi Ground Handling Delhi Private Limited, our subsidiary in India that began serving customers at Delhi Indira Gandhi International Airport from June 2010, serviced 8,327 aircraft at Delhi and Ahmedabad airports in 2015. In 2016, this figure increased by a remarkable 41.8% and reached 11,809 flights. In the last quarter of 2016, Celebi renewed its contracts with Saudi Arabian Airlines and Etihad Cargo, thus becoming entitled to service these two companies for the next three years.

Our Celebi Delhi Cargo Terminal Management India Pvt. Ltd subsidiary has been providing cargo warehousing and handling services in 77,000 m² of space at Delhi International Indira Gandhi Airport since November 2009. While the company had handled 395,583 tons of cargo in 2015, the same went up by 1.5% to 401,833 tons in 2016.

Celebi NAS, another subsidiary that began services at Chhatrapati Shivaji International Airport in Mumbai (Bombay) in July 2009, serviced 20,408 flights during 2015 and increased this figure significantly by 33.0% in 2016 to 27,149 flights. In the last quarter of 2016, Celebi NAS renewed its contracts with Saudi Arabian Airlines and Etihad Cargo, thus becoming entitled to service these two companies for the next three years.

Celebi Ground Handling’s first international subsidiary, Celebi Ground Handling Hungary served a total of 20,370 flights in 2016, up 4% as compared with 19,576 flights serviced in 2015. As of June, our Company began offering service to Air Canada.

Having started cargo handling operations in January 2011 in its new warehouse located outside the airport, Celebi Ground Handling Hungary started handling of land haulage and air cargo in the previous year. In the same year, Silkway Cargo ended its flights. While the company had provided service for a total of 48,419 tons during 2015, the same rose by 10.8% to 53,680 tons in 2016.

Celebi Cargo GmbH entered operation in 2011 to offer air cargo storage and handling services in its storage facilities at the International Airport Frankfurt’s “Cargo City Süd”. Having handled 263,201 tons of cargo in 2015, that figure went down by 21.85% to 205,704 tons in 2016. The main reasons behind the year-on decline in tonnage include the expiration of the contract with Qatar Airways as of 4 July 2016, the reduced amount of cargo carried by Saudi Arabian Airlines as compared with the previous year, and the expiration of the contract with that airline as of 8 November 2016.

As of the year ended on 31 December 2016, the Group reached a consolidated net turnover of TL 709,524,641, 3.11% less than in the previous year (2015: TL 732,278,323).

The Group’s consolidated gross profit for 2016 was down by 22.83% to TL 166,409,227 (2015: TL 215,649,774). In 2016, the Company posted an operating profit of TL 58,925,319 (2015 operating profit: TL 121,272,860).

7. DEVELOPMENTS IN INVESTMENTS; INVESTMENT INCENTIVES USED

Tangible fixed assets investment realized by the Group during the year ended on 31 December 2016 amounted to TL 20,767,928 (31 December 2015: TL 31,527,610). 48% of this amount consisted of investments in machinery, equipment and appliances, 25% in vehicles, 13% in investments in progress, and 18% in other investments. There are no incentives made available to the Company in relation to its investments in 2016.

Total consolidated investment outlays of the Group in tangible and intangible assets during the twelve months to 31 December 2016 were worth TL 25,924,108. (2015: TL 38,236,071)

8. DIRECT OR INDIRECT ASSOCIATES OF THE COMPANY AND INFORMATION ON SHAREHOLDING THEREIN

The Company holds a 94.8% stake in Çelebi Güvenlik Sistemleri ve Danışmanlık A.Ş. ("Çelebi Security"), a joint stock company engaged in airport terminal security and providing security service to airlines. The liquidation process has been initiated for Çelebi Güvenlik Sistemleri ve Danışmanlık A.Ş. in accordance with the decision of its General Assembly and the company’s title has been changed into Çelebi Güvenlik Sistemleri ve Danışmanlık A.Ş. in Liquidation.

The capital of Celebi Cargo is TL 29,500,000 as of 31 December 2016, which is fully paid-in. A ‘share purchase agreement’ was signed on 16 February 2014 between Celebi Cargo and Aviapartner GmbH, also residing in Frankfurt, Germany, for the transfer of all of the shares of Aviapartner Cargo GmbH (‘Aviapartner Cargo’), a wholly-owned subsidiary of Aviapartner GmbH operating in the field of cargo storage and handling at Frankfurt and Hahn International Airports in Germany, for a defined price of EUR 4.6 million to Celebi Cargo, and the final closing protocol regarding the said agreement was executed on 6 March 2015. The official company name of Aviapartner Cargo was changed to Celebi GmbH. Celebi GmbH was taken over by Celebi Cargo with all its assets and liabilities and merged with Celebi Cargo within the framework of the applicable legislation effective in Germany and the merger transactions were completed upon the registration made on 30 October 2014 under the applicable legislation in Germany.

9. INFORMATION ABOUT FINANCIAL STATEMENTS AND REPORTS

The consolidated financial statements of the Group are issued in compliance with the Capital Markets Board of Turkey (CMB) Communique Serial: II, No: 14.1 on Principles of Financial Reporting in the Capital Markets, which is published in the Official Gazette no. 28767 and dated 13 June 2013. In accordance with Article 5 of the communique, the Turkish Accounting Standards/ Turkish Financial Reporting Standards (TAS/TRFS) released by the Public Oversight Accounting and Auditing Standards Authority (KGG) and the related annexes and comments were taken as a basis in the publication of the consolidated financial statements.

The Group issued its financial statements for the period ending 31 December 2016 in accordance with the Turkish Accounting Standards (TAS) released by the Public Oversight Accounting and Auditing Standards Authority (KGG). Based on a decision passed on 17 March 2020, the CMB announced that the application of inflation accounting would no longer be required for companies operating in Turkey and preparing financial statements in accordance with TAS/TRFS in the period starting from 1 January 2020 to the period ending 31 December 2021.

When keeping their accounting records and preparing their mandatory financial statements, the Group and the Group companies located in Turkey conform to the principles and conditions set forth by KGG, as well as the Turkish Commercial Code (TCC), tax legislation, and the requirements of the Uniform Chart of Accounts issued by the Republic of Turkey Ministry of Finance (Ministry of Finance). Preparing in accordance with the Turkish Financial Reporting Standards, consolidated financial statements are issued in Turkish Lira (’TL’) based on the historical cost conversion except for the financial assets and liabilities, which are recorded at their fair values. Consolidated financial statements are prepared according to legal records that are based on the historical cost principle, which reflect the necessary corrections and classifications for the purposes of correct representation, in accordance with the Turkish Financial Reporting Standards. The TL is accepted as the Company’s functional currency and currency of presentation.

Items included in the financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). Condensed consolidated financial statements are presented in TL, which is the Company’s functional and the Group’s presentation currency.

There are no assets that are not included in the Company’s consolidated financial statements for the year ended 31 December 2016. All matters that could be useful for those who will make use of these financial statements are contained in the financial statements and the footnotes thereto.

Impact of Warehouse Fire on the Consolidated Financial Statements

The warehouse of the Company located at Atatuırk Airport (‘AHL’) Terminal C in which the Company carries out cargo - warehouse operations was damaged by a fire that broke out on 24 May 2006. As a result of the fire, goods belonging to third parties were also damaged in addition to the damage to property, plant and equipment and leasehold improvements of the Company. As of 31 December 2016 some of the owners of the goods have applied to the Company and its insurance company for compensation of their losses by filing lawsuits against the Company and via enforcement proceedings.

There are lawsuits and enforcement proceedings initiated against the Company with a total worth of TL 20,318,125, under which the Company is a joint respondent with others (General Directorate of State Airports Authority (in Turkish: DHMİ), other warehouse operators, insurers) for an amount of TL 8,602,666 and under which it is the sole respondent for an amount of TL 11,515,459.

The Company held a fully-paid insurance policy of USD 1,500,000 to cover the value of goods. This amount was registered as revenue as of 31 December 2013 and collected in full from the insurance company.

For covering the legal claims arising out of the cargo warehouse fire that broke out on 24 May 2006, the Company management decided to utilize its insurance policy with a cover of USD 10,000,000 under the funds set up with the State Airports Authority (DHMİ) and the other warehouse operator within the frame of the terms set out in the “Sharing Agreement” executed by and between the said parties. The said agreement has been set up to cover the joint claims in relation to losses arising as a result of the fire that occurred at the warehouse.

As of 31 December 2016, 225 lawsuits with an invoice value of TL 150,162,508 (USD 42,669,501) to which the Fund Companies are a party have been settled amicably at TL 88,995,669 (USD 252,289,274), which amount has been paid to the claimants.
Negotiations are currently ongoing within the scope of the Fund for a total of 11 claims for which no agreement has yet been reached by and between the fund and other claimants. The total value of these claims amounts to USD 3,977,010. The balance of USD 14.6 million is expected to cover the settlement of all claims against all Fund participants, for which negotiations are still in progress.

Along the same lines, the Company management believes that all of the legal claims against the Company may be settled amicably within the scope of the collected insurance policy and the balance in the fund set up. Since no negative developments occurred in relation to the Company’s possible liabilities that would change the points declared in the past developments occurred in relation to the Company’s possible liabilities that would change the points declared in the past, no provisions have been set aside in the consolidated financial statements dated 31 December 2016.

10. DONATIONS

In the year ending 31 December 2016, the Group’s donations and grants to various foundations, associations, chambers, public institutions and organizations amounted to TL 452,651.

Current Ratio and Cash Ratio: The current ratio was registered as 0.77, due to a 18.57% reduction in current assets although there was 3.31% rise in short-term liabilities. The decline in the cash ratio from 0.53 to 0.28 stemmed from a 45.42% decline in cash and cash equivalents but an only 3.31% rise in short-term liabilities as compared with 31 December 2015.

Short-Term Liabilities/Total Liabilities: This ratio went down from 49.48% to 46.52% in the 12-months to end-2016 as a result of a 3.33% rise in the short-term component of total liabilities combined with a 36.36% rise in the long-term liabilities as compared with year-end 2015.

External Resources/Shareholders’ Equity: This ratio increased as a result of a 29.52% YoY increase in shareholders’ equity at end-2016 while liabilities went up by 9.90% in the same period.

Average Collection Time: Average collection time was up from 32.22 days 42.47 days due to a 3.11% reduction in net sales revenues despite an average rise of 27.71% in commercial receivables as compared with 31 December 2015.

Gross Profit Margin: Although there was a 5.13% increase in the cost of sales as compared with 31 December 2015, 3.11% decrease in net sales revenues drove gross profit margin from 29.45% down to 23.45%.

Operating Profit (Loss)/Net Sales Revenues: As a result of a 3.11% decline in net sales revenues combined with a 51.41% decrease in operating profit, the ratio of operating profit to net sales revenues slid down from 16.56% to 6.3%.

Operating Profit (Loss)/Total Assets: Despite 1.53% expansion in total assets, 51.41% contraction in operating profit pulled the ratio of operating profit to total assets down from 17.65% to 6.54%.

EBITDA/Net Sales Revenues: A 3.11% decline in net sales revenues combined with a 25.65% decrease in earnings before interest, taxes, depreciation, and amortization caused the EBITDA/net sales revenues ratio to go down from 25.13% to 19.29%.

Çelebi Ground Handling Inc: Dividend Policy

- Taking our Company’s medium- and long-term strategies, its investment and financing policies, and its profitability and cash situation into account and in the absence of any extraordinary developments in our Company’s investment and/or financing needs and/or occurrences in its industry or the economy, at least 50% of net distributable profit shall be paid out as a dividend. When determining the dividend rate, attention shall be given to medium- and long-term investments that may require short-term cash outflows, material events that affect our Company’s financial structure, and significant developments in the sector and/or in the economy and/or in markets.

- Dividends whose payment has been decided upon may take the form of cash, of bonus shares, or of some mix of the two.

- Dividend and payment-timing Board of Directors resolutions shall be in compliance both with this Dividend Policy and with currently applicable laws, regulations, and administrative provisions and then publicly disclosed. Board of Directors dividend payment-timing proposals shall be considered and decided upon by shareholders convened in a general assembly. The payment of dividends shall begin within thirty days of the date of the general meeting at which the decision to pay them is taken and in all cases within statutory-mandated periods of time. The Board of Directors may decide to have dividends paid in instalments provided that a general assembly of shareholders shall have authorized it to do so.

- Provided that a general assembly of shareholders shall have authorized it to do so, the Board of Directors may decide to have advances paid against dividends and may effect the payment of such advances subject always to the Capital Markets Law and Capital Markets Board regulations and decisions and to the Company’s own articles of association.

With the decision of the Board of Directors on 1 April 2016, our financial statements, prepared on the basis of our legal books of account dated 31 December 2015, show a net current profit of TL 80,491,719.59 remaining after the deduction of all taxes and other legal obligations. Since there is no prior year loss that needs to be deducted from the net profit for the period and no first legal reserves that need to be set aside pursuant to the Turkish Commercial Code (TCC), the net distributable profit that can be paid out as a dividend is the net profit for the period of TL 80,491,719.59.

According to our Company’s independently-audited consolidated financial statements dated 31 December 2015 prepared in accordance with Turkish Accounting Standards & Turkish Financial Reporting Standards (TMS/TRS) and in CMB-specified formats pursuant to the requirements of CMB Communiqué I:141 Concerning Financial Reporting Principles in Capital Markets, the net profit remaining after the deduction of taxes and other statutory obligations amounts to TL 83,058,187.

Within the framework of CMB legislation, since there is no Prior Year Loss that needs to be deducted from the Net Profit for the Period and no first legal reserves that need to be set aside pursuant to the Turkish Commercial Code (TCC), the net distributable profit is TL 83,058,187.

Accordingly, the Board of Directors has resolved with the majority of present votes to submit the following matters for the consideration and approval of shareholders at the annual general meeting to be convened on 20 April 2016:

That TL 80,068,500.00 of the TL 83,058,187.00 that descends as net current profit in the Company’s consolidated financial statements dated 31 December 2015 be distributed as indicated below and that the remaining TL 2,989,687.00 be retained in the Company as extraordinary reserves;

That, in compliance with CMB regulations pertaining to profit distributions and with respect to the period beginning on 01 January 2015 and ending on 31 December 2015:

- Shareholders who are resident corporate entities and shareholders who are non-resident corporate entities but earn dividends through a place of business or permanent representative based in Turkey will be paid a 300.00% cash dividend corresponding to TL 3,000.00 gross (which is equal to TL net) for each share of stock with a nominal value of TL 1.00 that they hold; 27 April 2016 will be set as the dividend payment date.
- The decision of the Board of Directors was ratified at the ordinary general meeting convened on 20 April 2016 and dividend payments were made.

14. MISSION, VISION AND STRATEGIC OBJECTIVES

Mission

To be the global solution partner, adding value to its shareholders while correctly perceiving the needs of airport users and sustaining quality.

Vision

With a team fully identified with the collective “Çelebi spirit”, being an internationally leading and trustworthy company that creates changes in its sector and produces value for all stakeholders.

Strategic Objectives

The strategic objectives of Çelebi Ground Handling are to maintain its position as the leader of the ground handling services sector in Turkey, to take part in ventures in ground handling services and terminal management and operations inside/outside Turkey.

Our Values

- Respect for the individual: We believe in the worth of each and every person and strive to make people feel that they are worthwhile. We accept individual differences and listen to and respect individual ideas. We give people opportunities to see the added value that they create and we support their efforts to develop themselves professionally.
- Commitment to the rules of ethics: Each one of us is a trustworthy, reputable, and self-respecting individual. For this reason, individually and as a company we are bound by ethical values in business and social life and we believe in the merits of fulfilling our promises in a timely manner, of producing high-quality results that are correct and reliable, and of acting in accordance with established beliefs, rules, and ways of thinking.
- Development: The development of our Company lies in the development of the individuals who make it up. For this reason, we believe first of all that we need to identify our own limitations and then acknowledge our responsibility for developing ourselves individually in order to overcome those limitations. "Development" is not understood exclusively in the professional dimension; we believe in the necessity of developing ourselves so as to improve our social skills as well. Telling others what we know and have seen, and sharing what we have with others makes us richer. As we assume the duty of each other’s development and guarantee our individual development through the people that we train to take our own places, our commitment to development encourages us to constantly review how we do our work and perform our services and to strive to come up with methods that are more effective, productive, and straightforward.
- Teamwork: We believe in the need to complement each other in our efforts to maximize our individual successes and contributions. We strive in mutual assistance and solidarity with our shared goals, responsibilities, and sensibilities and with our rational and respectful professionalism. We are aware that the successes we achieve are the products of a team effort and with our collective “Çelebi spirit”, each of us feels the same sense of responsibility as individuals for the ensuing results.
- Success and result focus: As a team we strive to achieve our objectives without losing focus; make every necessary effort at every point to achieve results; maintain our discipline and determination to work until those results have been achieved. We take pleasure in working and in creating value. Each and every result and success we achieve is exciting for us.
VI. RISKS AND AN ASSESSMENT BY THE GOVERNING BODY

15. BASIC FINANCIAL RISKS AND MANAGEMENT POLICIES

Due to the nature of its activities, the Group is focused on managing various financial risks including the effect of changes in exchange and interest rates. By its risk management program, the Group aims to minimize the potential negative effect to be caused by the volatilities in the markets.

Risk management is carried out within the frame of policies approved by the Board of Directors. The tasks of planning risk management, overseeing its operations and effectiveness, and ensuring that the internal audit team carries out its activities within the framework of the risk management plan are the duty of the Audit Committee, which has been set up by a Board of Directors resolution pursuant to CMB regulations and of the Corporate Governance Committee pursuant to the CMB Communiqué on the Determination and Implementation of Corporate Governance Principles. The Audit Committee formulates a risk management and internal audit system capable of minimizing the risks that the Company could be exposed to and takes such measures as are needed to ensure that the system functions reliably. The Corporate Governance Committee sets up the necessary mechanisms for the early detection of operational and financial risks, implementation of necessary actions in relation to identified risks, and management of risk, and takes the necessary steps for their healthy operation.

Interest Rate Risk

The Company is exposed to interest rate risk due to the effect of the changes in interest rates on interest-bearing assets and liabilities. This risk is managed through balancing assets and liabilities that are sensitive to interest rates. Within the frame of its principle to manage risk with natural actions consisting of balancing the maturities of assets and liabilities sensitive to interest rates, the Company management utilizes its interest-bearing assets in matching-term investments. In addition, the Company protects itself from the interest risk arising from floating-rate bank loans through limited use of interest rate swap agreements that take place among derivative instruments as and when deemed necessary.

Liquidity Risk

The cash flow, made up of repayment times and amounts of loans, is managed in view of the amount of free cash flow to be generated by the Group on its activities. Therefore, while the option of debt repayment with the cash generated on activities is accessible on the other.

Credit Risk

Credit risk consists of cash and cash equivalents, deposits held with banks, and customers exposed to credit risk that cover uncollected receivables.

With respect to the management of the credit risk concerning its receivables from customers, the Company identifies a risk limit individually for each customer (excluding related parties) using bank and other guarantees, and the customer carries out its business transactions so as not to exceed this risk limit. In the absence of these guarantees or in cases where they are required to be exceeded, transactions are carried out within internal limits set by procedures.

Exchange Rate Risk

Taking into consideration the significantly volatile course adopted in the past by the Turkish Lira against major foreign currencies and its over-valuation, the Group espoused a conservative monetary position and financial risk management policy. The Group is exposed to exchange rate risk due to its operations conducted in numerous currency units. Efforts are spent to keep the ratio of the amount of positions of these currencies among themselves or against Turkish Lira to total shareholders' equity within certain limits. To this end, foreign currency position is continually analyzed, and the exchange rate risk is managed using balance sheet transactions, or when necessary, off-balance sheet derivative instruments.

Capital Risk

The Company’s goals in managing the capital is to be able to ensure the continuity of the Company’s activities to sustain the optimum capital structure for the purpose of providing returns for its shareholders and benefits for its other stakeholders, and to minimize the cost of capital. The Company’s shareholders may, to the extent allowed by the CMB legislation, alter the amount of dividends paid to shareholders, return the capital to shareholders, issue new shares and sell its assets to decrease indebtedness in order to preserve or reformulate the capital structure. Along with the other companies in the sector, the Company monitors the capital by utilizing the debt/capital ratio, which is net indebtedness divided by total capital. Net debt is total debt less cash and cash-equivalent assets and deferred tax liabilities. Total capital is the shareholders' equity and net debt as shown in the balance sheet.

VII. OTHER MATTERS

16. CHANGES TO THE ARTICLES OF INCORPORATION AND COMPANY POLICIES

Changes to the Articles of Incorporation

Based on the Company’s Board of Directors resolution passed on 22 February 2016, it was decided that:

‘Article 6 – Capital and Type of Share Certificates’ of the Company’s articles of incorporation be amended so that the Company can remain within the registered capital system; that all necessary formalities be handled for making such amendment; that upon receipt of necessary permissions from the related authorities, the amendment to the articles of incorporation be included in the agenda of the first general meeting to be convened and be laid down for the approval of the Company’s shareholders.

The amendment to ‘Article 6 – Capital and Type of Share Certificates’ of the Company’s Articles of Incorporation has been ratified at the Company’s Ordinary General Meeting convened on 20 April 2016 and the said amendment was registered with the Istanbul Trade Registry on 22 April 2016 and promulgulated in the Turkish Trade Registry Gazette issue 9904 dated 28 April 2016.

The amended wording of the Articles of Incorporation is quoted below:

• The Company has adopted the registered capital system in accordance with the provisions of the Capital Market Law, and switched to the aforementioned system based on the Capital Markets Board of Turkey (CMB) permission dated 21 March 2000 and numbered 30435. The Company’s registered capital is TL 100,000,000 (one hundred million Turkish Liras), divided into 10,000,000,000 (ten billion) shares each with a nominal value of TL 0.01 (one Kurush).

• The permission granted by the CMB for the authorized capital is valid from 2016 through 2020 (5 years). Even if the authorized capital so permitted is not reached by the end of 2020, in order for the Board of Directors to pass a capital increase decision after 2020, it is mandatory to get authorization from the General Assembly of Shareholders for a new period of time, which should not be any longer than 5 years, upon getting permission from the CMB for the previously permitted or a new maximum capital amount. In the absence of the said authorization, capital increases may not be carried out by way of a Board of Directors resolution.

• The Company’s issued capital is TL 24,300,000 (twenty-four million three hundred thousand Turkish Liras) divided into 2,430,000,000 (two billion four hundred thirty million) shares each with a nominal value of TL 0.01 (one Kurush).
Out of the issued capital:

- TL 88,822,25 (eighty-eight thousand eight hundred twenty-two Turkish Liras and twenty-five Kurush) has been fully paid in cash.
- TL 2,700,000 (two million seven hundred thousand Turkish Liras) has been covered from dividends paid out as bonus shares.
- Whereas the remaining TL 21,511,177.75 (twenty-one million five hundred eleven thousand and seventy-five thousand Turkish Liras and seventy-five Kurush) was covered through capitalization of internal resources made up of as follows:
  - TL 8,670,185.42 (eight million six hundred seventy thousand one hundred and eighty-five Turkish Liras and forty-two Kurush) from revaluation of fixed assets.
  - TL 240,992.33 (two hundred forty thousand nine hundred ninety-two Turkish Liras and thirty-three Kurush) from Extraordinary Reserves.
  - TL 12,600,000.00 (twelve million six hundred thousand Turkish Liras) from Inflation Adjustment Differences in Shareholders’ Equity.

Capitalized dividends and shares issued to represent internal resources have been distributed as bonus shares to shareholders pro rata their shareholding.

The table below shows the distribution of shares divided into Classes A, B, and C that represent the issued capital.

The issued capital of the Company is TL 24,300,000 and has been fully paid free from collusion.

The Company’s capital may be increased or decreased when necessary, subject to the provisions of the Turkish Commercial Code and the Capital Market legislation. When it deems necessary, the Board of Directors is authorized to increase the issued capital by issuing new shares up to the registered capital, and to pass decisions for issuing premium stock or shares below their nominal values through restricting the rights of privileged shareholders and through restricting the new share acquisition right of shareholders. The authority to restrict new share acquisition right may not be exercised in a manner to result in inequity.

Shares representing the capital are followed-up in dematerialized form within the frame of dematerialization principles.

Company Policies

On 8 April 2014 our Company’s Board of Directors passed a resolution to approve the revision of the Company’s Dividend Policy pursuant to the requirements of Capital Markets Board Dividend Communiqué II-131, which went into effect with its publication in issue 28895 of Trade Registry Gazette dated 23 January 2014; to publicly disclose this revision; and to submit this revised Dividend Policy for the consideration and approval of shareholders at the upcoming annual general meeting. At the annual general meeting held on 8 May 2014, this revised Dividend Policy was unanimously approved by shareholders.

On 11 April 2014 our Company’s Board of Directors passed a resolution to approve the revision of the Company’s Remuneration Policy pursuant to the requirements of CMB Corporate Governance Communiqué II-171, which went into effect with its publication in issue 28871 of Trade Registry Gazette dated 3 January 2014; to publicly disclose this revision; and to submit this revised Remuneration Policy for the consideration of shareholders at the upcoming annual general meeting. At the annual general meeting held on 10 May 2014, shareholders were informed about this revised Remuneration Policy.

17. EVENTS AFTER THE FINANCIAL STATEMENT DATE

Since the Company’s Board of Directors passed a decision on 20 January 2017 to raise Çelebi Cargo’s fully-paid-in-capital of TL 50,000,000 to TL 114,000,00, it has been decided to participate in the capital in the amount of TL 84,000,000, which is the amount incremented in cash due to this capital increase, by exercising its preemptive rights corresponding to its equity stake of 59.97% held in the Company capital, and to pay the amount in accordance with the provisions of the articles of incorporation of the Company, in the capital increase of which it is participating, and with the Board of Directors decisions. The portion of TL 21,000,000 of the payments made on account of participation in the said capital increase has been paid on 20 January 2017, and the portion of TL 62,927,000 on 14 February 2017.

18. PROFIT DISTRIBUTION PROPOSAL OF THE BOARD OF DIRECTORS

Our financial statements prepared on the basis of our legal books of account dated 31 December 2016 show a net current profit in the amount of TL 28,034,840.88 remaining after the deduction of all taxes and other legal obligations.

Since there is no Prior Year Loss that needs to be deducted from the Net Profit for the Period and no first legal reserves that needs to be set aside pursuant to the Turkish Commercial Code (TCC), the net distributable profit that can be paid out as a dividend on the basis of our legal books of account is TL 28,034,840.88.

The net profit for the period, after the deduction of tax and legal liabilities, in our consolidated financial statements dated 31 December 2016 that were prepared in accordance with the formats specified by CMB and in the Turkish Accounting Standards/Turkish Financial Reporting Standards (TAS/TFRS), pursuant to the Capital Markets Board of Turkey (CMB) Communiqué Serial: II, No: 14.1 on the “Principles of Financial Reporting in the Capital Markets”, and which have been audited by independent organizations, amounted to TL 26,836,035.00.

Within the framework of CMB legislation, since there is no Prior Year Loss that needs to be deducted from the Net Profit for the Period and no first legal reserves that needs to be set aside pursuant to the Turkish Commercial Code (TCC), the net distributable profit is TL 26,836,035.00.

Accordingly the Board of Directors has resolved to submit the following matters for the consideration and approval of shareholders at the annual general meeting to be convened on 20 April 2016.

The entirety of the Net Profit for the Period in the amount of TL 26,836,035.00 descended in the Company’s Consolidated Financial Statements dated 31 December 2016 and the portion of TL 6,454,965.00 of prior year profits be distributed as follows:

CORPORATE GOVERNANCE PRINCIPLES COMPLIANCE REPORT

1. Statement of Compliance with Corporate Governance Principles

In the fiscal year ending 31 December 2016, the Company worked as necessary to achieve full compliance and complete implementation of the Corporate Governance Principles published by CMB, and efforts continued to achieve compliance, understanding and implementation of these principles.

Pursuant to the CMB’s Communiqué No: 171, dated 3 January 2014 on the Corporate Governance, in 2015, all structural revisions and principles have been fully implemented that were stipulated as compulsory in the said Communiqué, including amending the Company’s articles of incorporation, setting up the Committees specified in the principles, restructuring Company organs as stipulated, developing the infrastructure needed so that announcements are made subject to the principles. We hereby declare that efforts will be persisted to achieve significant compliance with these principles.

Part I - Investors

2. Investor Relations Unit and Coordination of the Corporate Governance Implementation

Our Company carried out the following activities within the frame of the efforts to achieve full compliance and complete implementation of the provisions of Article 11 related to the CMB Corporate Governance Communiqué Serial: II No: 171:

- An Investor Relations Unit is set up, which works for the exercise of shareholding rights at our Company whose shares are traded on the Borsa İstanbul (BİST). This Unit reports to the Board of Directors and maintains the communication between shareholders and the Board of Directors. During the reporting period, Deniz Bal, who functions as the Financial Affairs Director at the Company and who holds “Capital Market Activities Advanced Level License” and “Corporate Governance Rating Expertise” license served on this Unit. (Tel: +90-216-666 6767, e-mail: deniz bal@celebiaviation.com)
- Tolga Akdoğan, a full-time employee of the Company who holds both “Capital Markets Advanced Level” and “Corporate Governance Rating Specialist” licenses, was appointed to the position of “Investor Relations Unit Employee” during the reporting period. (Tel: +90-216-666 6767, e-mail: tola.akdogan@celebiaviation.com)
- Deniz Bal, who holds both “Capital Markets Advanced Level” and “Corporate Governance Rating Specialist” licenses and serves in the capacity of Investor Relations Unit Manager, performed the additional duties of fulfilling obligations arising from capital market laws and regulations, of coordinating corporate governance practices, and of reporting on such matters to the Company’s general manager during the reporting period.

3. Shareholders’ Exercise of Their Right to Obtain Information

During the reporting period, there were a limited number of verbal requests made by our Company’s shareholders and investors for information about the performance of our Company’s shares on the BIST, about the amounts and timings of dividend payments and share capital increases, about investments in progress, and about publicly disclosed financial statements and their footnotes. These requests were responded verbally and/or in light of any information that had previously been publicly disclosed by means of special circumstance announcements within the framework of CMB regulations and on the basis of information provided in the “Questions and Answers” section of the Company’s corporate website.

Shareholders’ electronic access to information concerning the exercise of their rights through the Company's corporate website at www.celebihandling.com and investor relations website at www.celebiyatirimci.com was at the level stipulated in the corporate governance principles announced by the Capital Markets Board. At the same time, developments related to shareholders’ exercise of their rights were also publicly disclosed by means of special circumstance announcements as required by CMB regulations and through newspaper announcements as required by law.

Moreover, in 2016, 13 informational meetings were held so as to keep brokers and analysts well informed on the Company’s activities and financial performance.

A request to have a special auditor appointed is not an individual right provided for under our Company’s articles of incorporation. There were no requests for the appointment of a special auditor in 2016.

4. General Meetings

The Company’s annual general meeting was held on 20 April 2016 during which the following resolutions were passed:

- The financial statements for the fiscal year 2015 are approved.
- TL 80,068,500.00 of the TL 83,058,187 that descends as net current profit in the Company’s consolidated financial statements dated 31 December 2015 will be distributed as indicated below and that the remaining TL 2,989,687.00 will be retained in the Company as extraordinary reserves.

In this framework, in compliance with CMB regulations pertaining to profit distribution and with respect to the period beginning on 1 January 2014 and ending on 31 December 2015:

- Shareholders who are resident corporate entities and shareholders who are non-resident corporate entities but earn dividends through a place of business or permanent representative based in Turkey will be paid a 100.00% cash dividend corresponding to TL 3.00 gross for each share of stock with a nominal value of TL 1.00 that they hold;
- Other shareholders will be paid a 300.00% cash dividend corresponding to TL 3.00 gross for each share of stock with a nominal value of TL 1.00 that they hold, which amount is equal to a 255.00% cash dividend corresponding to TL 2.55 net for each share of stock with a nominal value of TL 1.00 that they hold, and that 27 April 2016 will be set as the dividend payment date.

- The members of the Board of Directors and the Company’s statutory auditors are acquitted of their fiduciary responsibilities.
- Board of Directors members Can Çelebioglu, Isak Antika, Canan Çelebioglu, Mehmet Murat Çuğunçoğlu, Mehmet Yağzı Çekin, and Turgay Kutça, whose terms of office have expired, are elected to serve as board members for a period of one year (the period between two consecutive annual general meetings).
- Feyzi Onur Yoka and Adil Iker Turan are elected to serve as independent board members for a period of one year (the period between two consecutive annual general meetings).
- Independent board members are to be paid a monthly fee/honorarium of gross TL 5,000.00 but no such fees or honoraria are to be paid to board members other than the independent ones.
- Güney İbrahim Denetim ve Serbest Muhasebeci Mali Müşavirler Anonim Şirketi (“Ernst&Young”) is designated as the independent audit firm (“Auditor”) to carry out the independent audit of the financial statements for 2016 fiscal year and other activities falling under the arrangements in the said laws.
- “Article 6 – Capital and Type of Share Certificates” of the Company’s articles of incorporation is to be amended.
- An upper limit of TL 500,000.00 is set on charitable donations that are to be made by the Company during 2016 (1 January 2016 – 31 December 2016).
- Shareholders holding management control, the members of the Board of Directors, senior executives and their spouses and relatives by blood or marriage unto the second degree have been authorized, as per Article 395 of the Turkish Commercial Code no. 6102, to deal in transactions with the Company and its subsidiaries that might lead to conflict of interest, and to deal with the Company on their own or others’ behalf.

Information was also provided to shareholders about:

- the guarantees, pledges, and mortgages granted and the revenues and benefits received by the Company to/from third parties during 2015 fiscal year;
- related-party transactions engaged in 2015 fiscal year; and
- TL 309,474.85 worth of charitable donations to various foundations, associations, professional chambers, and public agencies and organizations during the period beginning on 01 January 2015 and ending on 31 December 2015.
Participation in general meetings
The Ordinary General Meeting held on 20 April 2016 was attended by shareholders responding either in person or in proxy to invitations sent out, as well as by two members of the Company’s Board of Directors, senior managers, Company’s Investor Relations Unit personnel, and representatives of a number of media organizations.

Entries in the shareholders’ register
There is no period of time stipulated in the Company’s articles of incorporation in which the holders of registered shares must have entries made in the shareholders’ register in order to take part in general meetings. The provisions of the Turkish Commercial Code (TCC) governing such matters are complied with by the Company. Shares corresponding to more than 99% of our Company’s capital have been duly registered as required by Capital Markets Board regulations. Shares belonging to our shareholders are retained in custody in the investor subaccounts of our Company as issuer and/or of brokerage concerns held by the Central Registry Agency.

Information announced to shareholders
With regard to the agenda of the Annual General Meeting on 20 April 2016, the Board of Directors membership candidate list, the Board of Directors’ annual report for 2015 calendar year, the Company’s remuneration policy, the resolution for profit distribution for 2015 calendar year and amendment of “Article 6- Representing and Binding the Company” of the articles of incorporation were all made available to shareholders and other stakeholders for their review through the Electronic General Meeting system and the Company’s website on the date on which the general meeting was announced.

Shareholders’ exercise of their right to ask questions at general meetings
The shareholders exercised their right to ask questions at the ordinary general meeting held on 20 April 2016, these questions were answered by the Company board members and executives that attended the meeting.

Motions made by shareholders at general meetings
During the Annual General Meeting on 20 April 2016, a total of 9 resolutions as listed below were made by shareholders, three of which were accepted unanimously and six were accepted by majority of votes:

- While the annual report of the Board of Directors was made available for shareholders to examine before the general meeting and handed out to those present at the meeting, and because the profit distribution section of the annual report is also to be read during the discussion of item 7 on the agenda, the general meeting agrees that it would suffice to read the Independent Auditors’ Report on the consolidated financial statements for the discussion of item 3 on the agenda.
- While the annual report of the Board of Directors was made available for shareholders to examine before the general meeting and handed out to those present at the meeting, the general meeting agrees that it would suffice to read the opinion section of the Independent Auditors’ Report on the annual report of the Board of Directors for the discussion of item 4 on the agenda.
- While the balance sheet and income statement included in the annex to the annual report were made available for shareholders to examine before the general meeting and both were handed out to those present at the meeting, the general meeting agrees that a reading of the main headings of both balance sheet and income statement would suffice for the discussion of item 5 on the agenda.
- A decision is to be made for acquittal of the members of the Board of Directors who served during the reporting period.
- A decision is to be made for the acquittal of the auditors who served during the reporting period.
- The candidates designated to serve as members of the Board of Directors until the next ordinary general meeting are hereby elected: Mrs. Canan Çelebioglu, Mr. Mehmet Mutaf Çavuşoğlu, Mr. Mehmet Yağız Çekin and Mr. Turgay Kutlaş are to be elected as board members representing Group A shareholders (Çelebi Havacılık Holding A.Ş.) and Mr. Can Çelebioglu and Mr. Isak Antika as board members representing Group B shareholders.
- Feyzi Onur Ikcioz and Ali İfet Tunar are to be elected as independent Board members to serve until the next Annual General Meeting to be held to fill the seats of independent Board members, whose terms of office expire.
- Elected independent board members are to be paid remuneration, while board members elected to represent Group A and B shareholders shall not be paid any wages for this period.
- An upper limit of TL 500,000.00 is set on charitable donations that are to be made by the Company during 2016.

Action taken to facilitate participation in general meetings
To facilitate participation in general meetings, a material event disclosure concerning them is made as required by CMB regulations while invitations announcing the meetings are published within the framework of the provisions of TCC and the Company’s articles of incorporation at least twenty-four days before the meeting date in the Turkish Trade Registry Gazette and a newspaper published in the place where our headquarters are located and announced in our Company’s internet site. Media organizations are also contacted to have the meeting announced in the press and electronic media.

Availability of general meeting minutes for inspection by shareholders
After they have been registered in accordance with applicable laws, regulations, and administrative provisions, general meeting minutes are published in the Turkish Trade Registry Gazette and are always available for the inspection of stakeholders at our Company’s headquarters and on its corporate website.

Presentation of information to shareholders regarding the amount and recipients of grants and donations during the reporting period under a dedicated agenda item in the general meeting
At the Ordinary General Meeting held on 20 April 2016, information has been presented to shareholders about the donations and grants made during the reporting period to various foundations, associations, chambers, public institutions and organizations amounting TL 309,475.

While there is no specific policy for donations and grants that is approved by the General Assembly of Shareholders, grants and donations are made subject to the provisions of Article 3-9 of the Company’s articles of incorporation, which reads “Donations and grants may be made to social foundations, associations, universities and similar institutions and public institutions subject to the principles set forth in the CMB legislation, by providing information to the shareholders at the general meeting and by complying with the public disclosure obligation pursuant to the Capital Market Legislation.”

5. Voting Rights and Minority Rights
According to our Company’s articles of incorporation, none of our Company’s shares incorporate special voting rights. Three categories (“A”, “B”, and “C”) of shares have been issued representing the Company’s capital. Of these, only the owners of “A” and “B” shares have the right to designate candidates to be elected as Company directors and statutory auditors. There are no reciprocal shareholding interests between our Company and our corporate entity shareholders. Minority shareholders’ interests are not represented in the Company’s administration because there is no minority shareholders who have been designated as candidates in elections for Company directors or statutory auditors and elected to such positions.

The Company’s articles of incorporation contain no provisions concerning the representation of minority shareholders interests on the Board of Directors or governing the accumulated voting method.

6. Entitlement to Dividends
Special rights concerning participation in the Company’s profits
There are no special rights concerning anyone’s participation in the Company’s profits.

10. Annual Report

Part III- Stakeholders

11. Keeping Stakeholders Informed

Based on the Company’s Board of Directors decision passed on March 19th, 2009, pursuant to the provision of Article 7 of the CMB Communiqué Serial: IV No: 41 on the Principles to be Complied with by Joint Stock Companies Subject to the Capital Market Law, and within the frame of efforts carried out to ensure achievement of full compliance by the Company with the Corporate Governance Principles published by the CMB and to fully implement the same, the Company set up an Investor Relations Unit, which will handle exercising of shareholding rights at our Company that is listed on the BIST, which reports to the Board of Directors, and which will maintain communication between the Board of Directors and shareholders. In this context, Deniz Bal, who has earned the “Capital Market Activities Advanced Level License” and who presently functions as the Financial Affairs Director at the Company was appointed as the head of the Investor Relations Unit as a full-time manager responsible for the fulfillment of the Company’s obligations arising from the capital market legislation, coordination of corporate governance practices and reporting thereon to the Board of Directors, and he carried out his duty during 2016.

In 2016, for the purpose of informing stakeholders, our Company’s executive director and other members of management gave interviews that appeared in the press and electronic media, took part in TV programs and discussions, and made press statements. Detailed information about the Company and its investments was provided in the course of such appearances and announcements.

12. Stakeholder Participation in Management

Airport ground handling services are a part of the civil aviation industry and as such they are a business that imposes stringent demands on specialization and expertise whose rules are specifically spelled out by international aviation agencies and organizations. Partaking in the management of a company engaged in this sector requires expertise in a variety of different areas and for that reason, no significant steps have been taken in the direction of involving the Company’s employees, the majority of which are blue-collar workers, in the Company’s management.

In matters involving non-technical issues such as employee rights and human resources policies on the other hand, individual workplace meetings are held regularly and at least once a year during which employees’ views on the conduct of work and Company practices are solicited. Changes are made where necessary in light of such views and feedback is provided.

13. Human Resources Policy

Our Company Human Resources policy is presented in section ‘4. Information on Personnel and Human Resources Policy’ of our Company’s annual report for 2016.

14. Rules of Ethics and Social Responsibility

The vision and mission statements that have been adopted by the Company are included in its every publication, on its corporate website, and on the Company intranet. Besides, two publications (Corporate Culture and Our Policies) that have been put out by the Company contain the principles that must apply and to which every employee must adhere in all dealings with Company personnel and outside parties. Copies of these publications are given to every newly hired employee during his or her orientation.

Every year Company meetings are held in which Company directors and the general manager take part for the purposes of informing senior, middle, and lower management about the Company’s ethical values, and short, medium, and long-term strategy within the framework of the mission and vision statements and ensuring that such matters are conveyed through them to all lower-echelon employees.

Regulation on the Code of Ethical Conduct, which is entitled “Code of Ethical Conduct” is posted on our Company’s website at www.celebiyatirimci.com.

Compliance with the European Union ("EU") Environmental Norms

When procuring new equipment, our Company only purchases items that comply with EU environmental norms. Our Company fully complies with all EU standards governing the prevention of noise and pollution.

Sectoral Responsibility Projects

There is not as yet a particularly great public awareness of the civil aviation industry in our country and for this reason, our Company gives special importance to supporting its sector to promote awareness and appreciation, and to help attract high-quality human resources to the industry.

To this end, the Company directly supports and sponsors:

- Sectoral movies about civil aviation
- The “Career Days” event held each year at the Eskişehir College of Civil Aviation
- The congresses, seminars, and training projects of aviation industry professional organizations.

On the other hand, the Company established cooperation with the Ministry of Transport and Erzincan University to set up a School of Civil Aviation under the university. Under the project, a school building is constructed with a floor area of 4,500 m² and a covered area of 15,000 m² holding 30 classrooms for a student body of 1,500. The official opening of the Erzincan Ali Çavit Çelebioğlu Civil Aviation Academy, construction of which was completed in September 2010, took place ahead of the 2011-2012 academic year.

Education continued at the academy during 2015-2016 academic year, and the number of enrolled students reached 246.

The Environment and Nature

Our Company has an Environment Management System (EMS) that has been developed in order to systematically reduce or eliminate the harm that is or may be caused to the environment. Our Company’s EMS aims at identifying environmental factors and at controlling such factors in order to minimize their environmental impact and to improve environmental performance during all the stages from the design of services to their presentation to the customers.

The Environment Management System has been awarded ISO 14001:2004 certification at headquarters offices and at Istanbul Atatürk, Antalya, İzmir, Britam, Dalaman and Ankara stations by TSE. With this certification, we declare that we shall:

- Carry out programs to minimize our waste and achieve compliance with laws and regulations.
- Carry out programs to minimize resource use.
- Coordinate efforts aimed at more environment-friendly production.

Aware of the need and responsibility on the part of people to use the natural resources they require to maintain a good way of life in a renewable way, which is to say mindful of future generations as well, our Company engages in the following activities to achieve optimum use of natural resources and to minimize pollution.
The types of waste delivered in 2016 to licensed firms for ensuring safe disposal and their quantities are presented below:

**Recycling:**
- Waste paper - 22.5 tons
- Scrap metal - 31.5 tons
- Electronic waste - 254 kg
- Waste plastic and glass - 133 kg

**Recovery:**
- Waste accumulators - 32.2 tons
- Waste toners/cartridges - 281 kg
- Waste batteries - 138.2 kg

**Energy Recovery:**
- Waste oil - 28.9 tons
- End-of-life tires - 23.9 tons

**Contaminated fabric and packaging** - 44.8 tons

Furthermore, the following have been delivered to licensed firms for safe disposal:
- Waste oil filters - 2,037 kg
- Fluorescent lamps - 182 kg
- Pressurized spray can waste - 242 kg
- Medical waste - 87 kg
- Mud in tank bottoms - 542 kg
- Waste de-icing liquid - 47.6 tons

The project “Green Airport” launched in 2009 by the T.R. Ministry of Transport, Maritime Affairs and Communications, Directorate General of Civil Aviation (DGCA) in an effort to systematically reduce and eliminate the actual or potential damage caused to the environment by establishments operating in airports was carried on in 2016. Last year, the Adana Station earned “Green Company” certification, increasing the total number of our certified stations to 7. Incentive mechanisms stemming from this certification entitled the Company to a total discount of EUR 366,450 on our license costs in 2016.

Çelebi Ground Handling has placed the principle of carrying out its operations efficiently and in an environmentally friendly manner as a part of its mission; and it has been fulfilling the necessary requirements for many years. In 2015, the Company received the ISO 14064 verification auditing services from TSE for the purpose of developing its own programs to manage greenhouse gas (GHG) emissions. Following the verification audit, the Company’s stations in İstanbul Atatürk, İzmir, Antalya, Bodrum, Dalaman and Ankara were certified according to the ISO 14064 standard.

Under the Carbon Disclosure Project (CDP) initiated by investors representing assets worth USD 100 trillion worldwide, Çelebi Ground Handling has been annually disclosing data on its greenhouse gas emissions and energy consumption, as well as risks and opportunities associated with climate change, to the CDP.

In 2016, we have participated in the CDP and become one of the 5,800 companies worldwide representing 58% of the total world market capital. Our participation in this platform will continue in the period ahead, and it is planned to complete the reporting relating to the previous year until June 2017.

There are no environment-related lawsuits filed against our Company on account of harm caused to the environment in 2016.

**General Social Responsibility Projects**

Health services: Our Company has been supporting the Lokman Hekim Health Foundation since 1986. Based in Gebze-Beylikbaşi outside İstanbul, this foundation serves low-income people who are in need of health services without any concern for material gain.
Educational Support: The Company and its employees extended active support to various educational projects. Employees representing the Company took part in the 38th Istanbul marathon organized in November 2016. The funds raised by the employees who ran the marathon for the benefit of TOÇEV, a foundation working to enable underprivileged but willing students to continue with their education, were contributed to the educational activities planned to be provided by TOÇEV to students who need financial support for their education.

Part IV - The Board of Directors

15. Structure and Formation of the Board of Directors

According to "Article 7 - Board of Directors" of our Company’s articles of incorporation, the Company’s affairs and administration are conducted by an eight-member Board of Directors; six of these members are elected by the General Assembly of Shareholders (four of them from among candidates nominated by a majority of Class A shareholders and two of them by a majority of Class B shareholders) and two independent members are elected by the General Assembly of Shareholders from amongst nominees satisfying the independence criteria. The number, qualifications, nomination and election of independent members who will serve on the Board of Directors are governed by the CMB requirements in relation to corporate governance. Company directors are elected for a maximum term of office of three years. A director whose term of office expires may be re-elected.

A director who represents a corporate-entity shareholder must notify the Company if his relationship with that entity terminates, wherever his seat on the board is vacated.

If a vacancy occurs in the Board’s membership before a term of office expires, the remaining directors will choose a new member from among candidates designated by a majority of shareholders of the same class as put the departing member up as a candidate. If the seat of an independent member is vacant, then a new member will be elected within the frame of CMB requirements, which will be laid down for approval at the next General Meeting. A member elected to the Board in this way will complete the remaining term of the departing director.

The Board of Directors will set up the Audit Committee and Corporate Governance Committee, Nomination Committee, Early Detection of Risk Committee and Compensation Committee to ensure healthy performance of its duties and responsibilities, in line with the Company’s current circumstances and needs. If separate Nomination Committee and Compensation Committee are not created due to the structure of the Board of Directors, then these functions will be fulfilled by the Corporate Governance Committee.

Formation, decision-making process, duties and operating principles of committees are defined in detail and publicly disclosed by the Board of Directors in accordance with the compulsory Corporate Governance Principles of the CMB and in view of the provisions of the articles of incorporation. The Board of Directors may, at any time, revise the duties and operating scopes of committees and it may also make the necessary replacements in their memberships.

According to "Article 8 - Representing and binding the company" of our articles of incorporation, the Company is administered and represented by the Board of Directors. The Board of Directors may delegate some or all of its powers to represent and administer the Company to executive directors and/or to managers who are not members of the Board. The individuals with the power to represent and bind the Company and the ways they may do so are determined by the Board and duly registered and announced. In order for any documents issued by the Company or for any contracts that are entered into to be valid, they must be signed, below the Company’s legal name, by an individual or by individuals authorized to do so by the Board of Directors.

Members of the Board of Directors elected by shareholders at the Ordinary General Meeting held on 20 April 2016 and their resumes are presented below.

The Members of the Board of Directors have been elected to serve a term of office of one year at the Ordinary General Meeting convened on 20 April 2016, until the next Ordinary General Meeting.

In accordance with the Company’s Corporate Governance Principles and Articles of Incorporation, İlter Turan and Feyzi Onur Koca, who were approved for their candidacy of membership of the independent Board of Directors, were elected as independent Board members to serve a term of office of one year (the period between the two General Meetings).

“Declaration of Independence” by the independent Board directors is presented below:

I hereby declare that;
1. I stand for serving as an "Independent Member" on the Board of Directors of Çelebi Havacılık Anonim Şirketi ("the Company") within the scope of the criteria stipulated by the Corporate Governance Principles of the CMB legislation;
2. I have not held a seat on the Company’s Board of Directors for more than six years in the past ten years;
3. Employment, capital or material commercial relationship, either direct or indirect, has not been established in the past five years between corporate entities with which any related party of the Company or shareholders holding, directly or indirectly, 5% or more share in the Company’s capital is related with respect to management or capital, and myself, my spouse and my relations by blood or marriage up to third degree;
4. I have not worked for or served as a member on the boards of directors of any company conducting, under a contract, the Company’s activities or organization in part or in whole, and particularly the firms performing the audit, rating and consultancy of the Company, in the past five years,
5. I was not a shareholder, employee or board member for any company supplying service or product of material quantity to the Company in the past five years,
6. I hold less than 1% share in the Company’s capital and these are not preferential shares/I hold no share in the Company’s capital,
7. I possess the professional education, knowledge and experience for due performance of the duties I will assume in connection with being an independent board member,
8. I am not a full-time employee of public institutions and establishments as at the date of nomination,
9. I am considered to be a resident of Turkey for the purposes of Income Tax Law,
10. I am capable of making positive contributions to the Company’s operations, maintaining my independence in possible conflicts of interest between the Company’s shareholders, making decisions freely taking into consideration the rights of stakeholders, and I possess strong ethical standards, professional credibility and experience that are necessary to do that,
11. I will forthwith notify any event that prejudices my independence, if applicable, to the Board of Directors for public disclosure of the same,
12. I will not demand any compensation from the Company apart from Board of Directors compensation and attendance fee,
13. I will dedicate sufficient amount of time to be able to follow up the operation of the Company’s affairs and to fully meet the requirements of the duties I undertake.

At the Company’s Ordinary General Meeting held on 20 April 2016, shareholders holding management control, the members of the Board of Directors, senior executives and their spouses and relatives by blood or marriage unto the second degree have been authorized, as per Article 395 of the Turkish Commercial Code, to deal in transactions with the Company and its subsidiaries that might lead to conflict of interest, and to deal with the Company on their own or others’ behalf.
16. Operating Principles of the Board of Directors

Determining the agenda for board meetings

Agendas for Board of Directors meetings may be determined in three different ways. The chairman may determine the agenda on the basis of suggestions received from Company directors, the Company’s General Manager may determine the agenda himself, the agenda for the next Board meeting may be determined during a Board meeting that is in progress.

Number of board meetings during the reporting period

The Company’s Board of Directors convened 91 times during 2016.

Meeting and decision quorums and methods and processes for summoning the meeting

The secretariat of the chairman of the Board of Directors keeps Company directors informed about meeting times and agendas by means of reports sent out regularly prior to the meeting. In 2016, 66 meetings convened with the attendance of 6 board members, 22 with 7 members, and 3 with 8 members.

Whether the questions posed by Directors and dissenting members’ reasonable and detailed objections during the meeting are entered into the record

The questions posed by the Company directors during the meeting are not entered into record.

The ability of Company directors to exercise special voting rights or veto board decisions

Our Company’s articles of incorporation do not vest any Company director with special voting rights or the ability to veto board decisions.

17. Numbers, Structures and Independence of Committees within the Board of Directors

On 20 April 2016, the Company’s Board of Directors decided to appoint the following board members - who were elected in the Annual General Meeting for the 2015 reporting period - to the following positions in accordance with the provisions of the Capital Markets Board’s Communiqué on Corporate Governance Principles: Feyzi Onur Koca and İltim Turan as members of the Audit Committee, Mehmet Yalçın Cekin and Feyzi Onur Koca as members of the Corporate Governance Committee, and Turgay Kutlu and İltim Turan as members of the Early Detection of Risk Committee.

Since there are two independent members on the Company’s Board of Directors, Feyzi Onur Koca serves both on the Audit Committee and the Corporate Governance Committee pursuant to the CMB Communiqué on Governance Principles, which states “All members of the Audit Committee and the heads of other committees are to be elected from among independent board members”.

Likewise, İltim Turan, one of the other independent members on the Company’s Board of Directors serves both on the Audit Committee and the Early Detection of Risk Committee. The Company’s Audit Committee convened nine times during 2016 at which times they interviewed the Company’s managers and checked whether or not our publicly disclosed financial statements accurately reflected the true standing of our operational results and whether or not the accounting principles adhered to by the Company were in compliance with CMB laws and regulations. They reached the conclusion that financial statements were correct and had been prepared in accordance with such requirements.

The Company’s Corporate Governance Committee convened three times during 2016. The Committee works to determine and remedy non-conformities, if any, with the relevant articles of the CMB Communiqué on the Determination and Implementation of Corporate Governance Principles, reviews the activities of the Company’s Investor Relations Unit with respect to their responsibilities arising from the legislation, and spends efforts to detect the Company’s operational and financial risks, take necessary steps for identified risks, and manage risk.

The Company's Early Detection of Risk Committee convened six times in 2016 and took the necessary measures in strengthening the early detection of the causes that could threaten the existence of the Company, its development and the continuity of the business unit. The Committee also applied the necessary measures and remedies in this regard, in the management of the risk.

During 2016, there were no related party transactions or transactions of a material nature, which had been laid down for the approval of independent Board members, nor were there any such transactions that were not approved and thus laid down for the approval of the General Assembly of Shareholders.

18. Risk Management and Internal Control Mechanism

The planning, conduct, functioning, and oversight of the effectiveness of risk management and internal control and the conduct of the internal control team’s activities within the framework of the plan are the responsibility of the Audit Committee that has been set up by a Board of Directors resolution and as per article 28/A added to CMB communiqué X: 16. The Audit Committee creates a risk management and internal audit system capable of minimizing the impact of the risks that the Company may be exposed to and takes such measures as needed to ensure that this system functions reliably.

19. Strategic Objectives of the Company

The Company’s Strategic Objectives are described under the section “Company’s Mission, Vision and Strategic Objectives” in the 2016 Annual Report.

20. Financial Rights

In the Annual General Meeting convened on 20 April 2016, the decision was taken to pay a gross monthly remuneration of TL 5,000 to each of the independent board member and to pay no remuneration to those board members who were elected to represent Group A and B Shareholders. In this context, remunerations were paid to independent board members in 2016.

The Company’s Board members have no debts carried forward from 2015; no Board member was lent money (advances on salaries) in 2016. There are no receivables (advances on salaries) to be paid by the Board members as of 31 December 2016.

The Company executives have no debts carried forward from 2016. Salary advances paid to Company managers in 2016 totaled TL 65,000. As of 31 December 2016, the Company was owed TL 20,505 in salary advances by its managers.

The terms of the loans made to Board members and executives were not prolonged nor were their conditions improved; no credit was extended to them under the rubric of personal loan nor were they provided with any guarantees such as surety through any third party.
BOARD OF DIRECTORS DECISION ESPousing the Financial Statements and Annual Reports

DECISION DATE: 13.03.2017

To the Board of Directors of Çelebi Hava Servisi A.Ş.;

Independent auditors’ report on the consolidated financial statements

We have audited the accompanying consolidated statement of financial position of Çelebi Hava Servisi A.Ş. (“the Company”) and its subsidiaries (together “the Group”) as of December 31, 2016 and the related consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders’ equity and consolidated statement of cash flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

Group Management’s Responsibility for the Financial Statements

Group’s management is responsible for the preparation and fair presentation of financial statements in accordance with the Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority (“POA”) of Turkey and for such internal controls as management determines is necessary to enable the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to error and/or fraud.

Independent Auditor’s Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our audit was conducted in accordance with standards on auditing issued by the Capital Markets Board of Turkey and standards on auditing issued by POA. Those standards require that ethical requirements are complied with and that the independent audit is planned and performed to obtain reasonable assurance whether the financial statements are free from material misstatement.

Independent audit involves performing independent audit procedures to obtain independent audit evidence about the amounts and disclosures in the financial statements. The independent audit procedures selected depend on our professional judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error and/or fraud. In making those risk assessments, the Company’s internal control system is taken into consideration. Our purpose, however, is not to express an opinion on the effectiveness of internal control system, but to design independent audit procedures that are appropriate for the circumstances in order to identify the relation between the financial statements prepared by the Group and its internal control system. Our independent audit includes also evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company’s management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained during our independent audit is sufficient and appropriate to provide a basis for our audit opinion.
INDEPENDENT AUDITORS’ REPORT

Opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of “Çelebi Hava Servisi A.Ş. and its subsidiaries” as of December 31, 2016 and their financial performance and cash flows for the year then ended in accordance with the Turkish Accounting Standards.

Reports on Other Responsibilities Arising From Regulatory Requirements

1) Auditors’ report on Risk Management System and Committee prepared in accordance with paragraph 4 of Article 398 of Turkish Commercial Code (“TCC”) 6102 is submitted to the Board of Directors of the Company on March 13, 2017.

2) In accordance with paragraph 4 of Article 402 of the TCC, no significant matter has come to our attention that causes us to believe that the Company’s bookkeeping activities for the period January 1 - December 31, 2016 and financial statements are not in compliance with the code and provisions of the Company’s articles of association in relation to financial reporting.

3) In accordance with paragraph 4 of Article 402 of the TCC, the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit.

2.1.1 Financial reporting standards

The Group's consolidated financial statements and disclosures have been prepared in accordance with the communiqué numbered II-141 "Communique on the Principles of Financial Reporting in Capital Markets" (the Communiqué) announced by the Capital Markets Board ("CMB") (hereinafter will be referred to as "the CMB Reporting Standards") on June 13, 2013 which is published on Official Gazette numbered 28676. In accordance with article 5th of the CMB Reporting Standards, companies should apply Turkish Accounting Standards/Turkish Financial Reporting Standards and interpretations regarding these standards as adopted by the Public Oversight Accounting and Auditing Standards Authority of Turkey (POA).

With the decision taken on March 17, 2005, the CMB announced that, effective from January 1, 2005, the application of standards as adopted by the Public Oversight Accounting and Auditing Standards Authority of Turkey (POA).

2.1.2 Amendments in International Financial Reporting Standards (IFRS)

The new standards, amendments and interpretations

The accounting policies adopted in preparation of the consolidated financial statements as at December 31, 2016 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2016. The effects of these standards and interpretations on the Group’s financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at January 1, 2016 are as follows:

TFRS 11 Acquisition of an Interest in a Joint Operation (Amendment)

TFRS 11 is amended to provide guidance on the accounting for acquisitions of interests in joint operations in which the activity constitutes a business. This amendment requires the acquirer of an interest in a joint operation in which the activity constitutes a business, as defined in TFRS 3 Business Combinations, to apply all of the principles on business combinations accounting in TFRS 3 and other TFRSs except for those principles that conflict with the guidance in this TFRS. In addition, the acquirer shall disclose the information required by TFRS 3 and other TFRSs for business combinations. The amendments did not have an impact on the financial position or performance of the Group.

TAS 16 Property, Plant and Equipment and TAS 41 Agriculture (Amendment) - Bearer Plants

The amendments to TAS 16 and TAS 38, have prohibited the use of revenue-based depreciation for property, plant and equipment and significantly limiting the use of revenue-based amortisation for intangible assets. The amendments did not have an impact on the financial position or performance of the Group.

TAS 27 Equity Method in Separate Financial Statements (Amendments to TAS 27)

Public Oversight Accounting and Auditing Standards Authority (POA) of Turkey issued an amendment to TAS 27 to restore the option to use the equity method to account for investments in subsidiaries and associates in an entity’s separate financial statements. Therefore, an entity must account for these investments either at cost, in accordance with IFRS 9 or using the equity method defined in TAS 27.

The entity must apply the same accounting for each category of investments. The amendment is not applicable for the Group and did not have an impact on the financial position or performance of the Group.

TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

Amendments issued to TFRS 10 and TAS 28, to address the acknowledged inconsistency between the requirements in TFRS 10 and TAS 28 in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture, to clarify that an investor recognises a full gain or loss on the sale or contribution of assets that constitute a business, as defined in TFRS 3, between an investor and its associate or joint venture. The gain or loss resulting from the re-measurement at fair value of an investment retained in a former subsidiary should be recognised only to the extent of unrelated investors' interests in that former subsidiary. The amendment is not applicable for the Group and did not have an impact on the financial position or performance of the Group.
TFRS 15 'Revenue from Contracts with Customers' has also been applied. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

TFRS 9 Financial Instruments

In January 2017, POA issued the final version of TFRS 9 Financial Instruments. The final version of TFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. TFRS 9 is built on a logical, single classification and measurement approach for financial assets that reflects the business model in which they are managed and their cash flow characteristics. Built upon this is a forward-looking expected credit loss model that will result in more timely recognition of loan losses and is a single model that is applicable to all financial instruments subject to impairment accounting. In addition, TFRS 9 addresses the so-called ‘own credit’ issue, whereby banks and others book gains through profit or loss as a result of the value of their own debt falling due to a decrease in credit worthiness when they have elected to measure that debt at fair value. The Standard also includes an improved hedge accounting model to better link the economics of risk management with its accounting treatment. TFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted by allowing all requirements of the standard. Alternatively, entities may elect to early apply only the requirements for the presentation of gains and losses on financial liabilities designated as FVTPL, without applying the other requirements in the standard. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

Annual Improvements to TFRSs - 2012-2014 Cycle

POA issued, Annual Improvements to TFRSs 2012-2014 Cycle. The document sets out five amendments to four standards, excluding those standards that are consequentially amended, and the related Basis for Conclusions. The standards affected and the subjects of the amendments are:

• IFRS 5 ‘Non-current Assets Held for Sale and Discontinued Operations’ - clarifies that changes in methods of disposal (through sale or distribution to owners) would not be considered a new plan of disposal, rather it is a continuation of the original plan.

• IFRS 7 Financial Instruments: Disclosures - clarifies that the assessment of servicer contracts that includes a fee for the continuing involvement of financial assets in accordance with IFRS 7. ii) the offsetting disclosure requirements do not apply to consolidated interim financial statements, unless such disclosures provide a significant update to the information reported in the most recent annual report.

• IAS 19 Employee Benefits - clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the currency where the obligation is located.

• IAS 34 Interim Financial Reporting - clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the interim financial report.

The amendments did not have significant effect on the financial position or performance of the Group.

Annual Improvements - 2010-2012 Cycle

As clarified in the Basis for Conclusions short-term receivables and payables with no stated interest rates can be held at amortised cost and are not subject to impairment. TFRS 15 Revenue from Contracts with Customers

In September 2016, POA issued TFRS 15 Revenue from Contracts with Customers. The new standard included the clarifying amendments to IFRS 15 made by IASB in April 2016. The new five-step model in the standard provides the recognition and measurement requirements of revenue. The standard applies to revenue from contracts with customers and provides a model for the sale of some non-financial assets that are not an output of the entity’s ordinary activities (e.g., the sale of property, plant and equipment or intangibles). TFRS 15 effective date is January 1, 2018, with early adoption permitted. Entities will transition to the new standard following either a full retrospective approach or a modified retrospective approach. The modified retrospective approach would allow the standard to be applied beginning with the current period, with no restatement of the comparative periods, but additional disclosures are required. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

The amendments did not have significant effect on the financial position or performance of the Group.

iii) The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adopted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRSs.

IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

In December 2015, the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted.

Annual Improvements - 2010-2012 Cycle

IFRS 13 Fair Value Measurement

As clarified in the Basis for Conclusions short-term receivables and payables with no stated interest rates can be held at invoice amounts when the effect of discounting is immaterial. The amendment is effective immediately.

IFRS 16 Leases

The IASB has published a new standard, IFRS 16 ‘Leases’. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 supersedes IAS 17 ‘Leases’ and related interpretations and is effective for periods beginning on or after January 1, 2019, with earlier adoption permitted if IFRS 15 ‘Revenue from Contracts with Customers’ has also been applied. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

The IASB issued amendments to IAS 12 Income Taxes. The amendments clarify how to account for deferred tax assets related to debt instruments measured at fair value. The amendments clarify the requirements on recognition of deferred tax assets for unrealised losses, to address diversity in practice. These amendments are to be retrospectively applied for annual periods beginning on or after January 1, 2017 with earlier application permitted. However, on initial application of the amendment, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings, or in another component of equity, as appropriate, without allocating the change between opening retained earnings and other components of equity. If the Group applies this relief, it shall disclose that fact. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.
The IASB issued amendments to IAS 7 ‘Statement of Cash Flows’. The amendments are intended to clarify IAS 7 to improve information provided to users of financial statements about an entity’s financing activities. The improvements to disclosures require companies to provide information about changes in their financing liabilities. These amendments are to be applied for annual periods beginning on or after January 1, 2017 with earlier application permitted. When the Company/Group first applies these amendments, it is not required to provide comparative information for preceding periods. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

**IAS 40 Investment Property: Transfers of Investment Property (Amendments)**

The IASB issued amendments to IAS 40 ‘Investment Property’. The amendments state that a change in use occurs when the economic characteristics and risks of the asset change. If a change in use occurs, the asset must be derecognized and recognized again at fair value. These amendments are to be applied for annual periods beginning on or after January 1, 2018. Earlier application is permitted. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

**IFRIC 22 Foreign Currency Transactions and Advance Consideration**

The interpretation clarifies the accounting for transactions that include the receipt or payment of advance consideration in a foreign currency. The Interpretation states that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income is the date on which an entity initially recognises the non-monetary asset or liability arising from the receipt or change in exchange rate. These amendments are to be applied for annual periods beginning on or after January 1, 2018. Earlier application is permitted. The amendment is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

**Annual Improvements to IFRSs - 2014-2016 Cycle**

The IASB issued Annual Improvements to IFRS Standards 2014-2016 Cycle, amending the following standards:

- **IFRS 1 First-time Adoption of International Financial Reporting Standards:** This amendment deletes the short-term exemptions about some IFRS 7 disclosures, IAS 19 transition provisions and IFRS 10 Investment Entities. These amendments are to be applied for annual periods beginning on or after January 1, 2018.
- **IFRS 12 Disclosure of Interests in Other Entities:** This amendment clarifies that an entity is not required to disclose summarised financial information for interests in subsidiaries, associates or joint ventures that is classified, or included in a disposal group that is classified, as held for sale in accordance with IFRS 5 ‘Non-current Assets Held for Sale and Discontinued Operations’. These amendments are to be applied for annual periods beginning on or after January 1, 2017.

(3) As of December 31, 2016 Çelebi Spain has directly and indirectly 100% voting right. However, Çelebi Spain has not been consolidated in consolidated financial statements by reason that the company operations have not started. It has been recognized as financial assets available for sale at cost and reflected in the financial statements (Note 5).

(2) Pursuant to the resolution taken in the Ordinary General Assembly meeting, of Çelebi Güvenlik with a capital of TL 1,906,736, participated by the Company at the rate of 94.8%, the liquidation process started as of December 31, 2013 and the title of the Company was changed into Çelebi Güvenlik Sistemleri ve Danışmanlık A.Ş. in Liquidation. As of December, 2016, since Çelebi Güvenlik Sistemleri ve Danışmanlık A.Ş. in Liquidation did not constitute any materiality on the consolidated financial statements of the Group, no additional presentation was made in the financial statements within the scope of IFRS 5 Assets Held for Sale and Discontinued Operations.

c) The Group categorized the sales and purchase of its subsidiaries’ shares transactions as transactions between group shareholders except parent company. Therefore, for the addition share purchase from other than parent company, the Group records the difference between cost of purchase and book value of asset of subsidiary’s purchased portion under shareholders’ equity. For the share sales to other than parent company, the Group records the income or loss as a result of the difference between sales price and book value of asset of subsidiary’s sold portion under shareholders’ equity.

d) Joint ventures are accounted by the equity method.

The significant accounting policies applied in the preparation of these consolidated financial statements are summarized below. These accounting policies are applied on a consistent basis for the comparative balances and results, unless otherwise indicated.

2.2.1 Comparative information

In order to allow for the determination of the financial situation and performance trends, the Group’s consolidated financial statements have been presented comparatively with the previous year.

The Group presented the consolidated statement of financial position as of December 31, 2016 comparatively with the consolidated statement of financial position as of December 31, 2015, presented the consolidated statement of comprehensive income, comprehensive income consolidated statement of cash flows and consolidated statement of changes in equity for the period ended December 31, 2016 comparatively with the consolidated financial statements for the year ended December 31, 2015.

2.3 Summary of Significant Accounting Policy Changes

2.3.1 Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits at banks and highly liquid short-term investments, with maturity periods of less than three months, which has insignificant risk of change in fair value (Note 4).

2.3.2 Revenue

Revenues are the invoiced values of trading goods sold and services given. Revenues are recognized on an accrual basis at the time the Group sells a product to the customer, the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Group at the fair value of considerations received or receivable. Rent income is recorded on an accrual basis, while interest income is recorded on an effective interest yield method basis. Dividend income is recorded as income as of the collection right transfer date.

In case of the Group sells on credit and does not acquire any interest throughout the maturity term or applies the lower interest rate than market interest rate and thus the transaction involves an effective financing process, the fair value of the provision for the sale is calculated by discounting the present value of receivables. The difference between the fair value and the nominal amount of the consideration is recognized as financial income in accordance with effective rate (internal efficiency).

According to the concession agreement signed by Çelebi Delta Cargo and Delhi International Airport Private Limited (“DIAL”) on August 24, 2009, 36% of the income, except for income resulting from IFRIC 12, is generated from the operation of the cargo terminal in the airport in New Delhi for 25 years, belongs to DIAL and this amount is indicated in the consolidated financial statements by netting off against the sales income of Çelebi Delta Cargo.

According to concession agreement signed by Çelebi GH Delhi and Delhi International Airport Private Limited (“DIAL”) on June 2, 2010, comparatively higher amount among 15% of the income which is generated from the airport ground services provided in the airport in New Delhi for 10 years or 12,75% of income based on price ceiling determined by DIAL, belongs to DIAL and this amount is indicated in the consolidated financial statements by netting off against the sales income of Çelebi GH Delhi.

Since the gross revenue of CGHH is not subjected to concession fee payment to authorities, revenue of CGHH has not been net-off in the consolidated financial statements.

2.3.3 Property, plant and equipment

Property, plant and equipment are stated at cost less depreciation, restated to the equivalent purchasing power at December 31, 2004 for the items purchased before January 1, 2005 and stated at cost less depreciation for the items purchased after January 1, 2005. Depreciation is provided on restated amounts of property, plant and equipment using the straight-line method based on the estimated useful lives of the assets.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

The depreciation periods for property and equipment, which approximate the economic useful lives of assets concerned, are as follows:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Useful Lives (Years)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Machinery and equipment</td>
<td>3-20</td>
</tr>
<tr>
<td>Motor vehicles</td>
<td>5</td>
</tr>
<tr>
<td>Furniture and fixtures</td>
<td>2-15</td>
</tr>
<tr>
<td>Leasehold improvements</td>
<td>5-15</td>
</tr>
</tbody>
</table>

Depreciation is provided for assets when they are ready for use. Depreciation continues to be provided on assets when they become idle.

Gains or losses on disposals of property, plant and equipment are determined by comparing the carrying amount at financial statements and collected amount and included in the other income or expense accounts, as appropriate.

Property, plant and equipment are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of asset net selling price or value in use. The recoverable amount of the property, plant and equipment is the higher of future net cash flows from the utilization of this property, plant and equipment or fair value less cost to sell.

Subsequent costs are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits with the item will flow to the company. Repairs and maintenance are charged to the statements of income during the financial year in which they are incurred.

2.3.4 Intangible Assets

Intangible assets are comprised of trademark licenses, patents, Build-Operate-Transfer investments, customer relations and computer software.

a) Goodwill

Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose identified according to operating segment.

The estimations related with the future cash flows do not include cash inflows and outflows related with restructuring that the Group has not committed yet or the enhancing or the improving the performance of the asset.

b) Commercial Business Licenses (Rights)

Commercial business licenses are carried at cost in financial statement. Commercial business licenses have a limited useful life and are measured at cost less accumulated amortization. The estimated useful (19 years) lives for amortization of licenses for commercial operation cost is calculated using the straight line method.

c) Contractual customer relationships

Contractual customer relationships acquired in a business combination are recognized at fair value at the acquisition date. The contractual customer relations have a finite useful life (5-7 years) and are carried at cost less accumulated amortization. Amortization is calculated using the straight-line method over the expected life of the customer relationship. Where there is any indication that a contractual customer relationships may be impaired, the carrying value of asset is tested for impairment. An impairment loss is recognized for the amount by which the asset’s carrying amount exceeds its recoverable amount.

d) Computer software

Rights arising on computer software are recognized at its acquisition cost. Computer software is amortized on a straight-line basis over their estimated useful lives and carried at cost less accumulated amortization. The estimated useful life of computer software is between 3-5 years. Costs associated with maintaining computer software programs are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.
2.3.5 Inventories

Inventories are valued at the lower of cost or net realizable value less costs to sell. Cost of inventories is comprised of the purchase cost and the cost of bringing inventories into their present location and condition. Cost is determined by the monthly moving weighted average method. The cost of borrowings is not included in the costs of inventories. Net realizable value less costs to sell is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

2.3.6 Impairment of Assets

At each reporting date, the Group assesses whether there is any indication that an asset other than deferred tax asset, intangible assets with indefinite useful lives, financial assets at fair value and goodwill may be impaired. When an indication of impairment exists, the Group estimates the recoverable values of such assets. Impairment exists if the carrying value of an asset or a cash-generating unit is greater than its recoverable amount which is the higher of value in use or fair value less costs to sell. Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit. An impairment loss is recognized immediately in profit or loss. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash flows from other assets or group of assets.

An impairment loss recognized in prior period for an asset is reversed if the subsequent increase in the asset’s recoverable amount is caused by a specific event since the last impairment loss was recognized. Such a reversal amount cannot be higher than the previously recognized impairment loss and shall not exceed the carrying amount that would have been determined, net of amortization or depreciation, had no impairment loss been recognized for the asset in prior years. Such a reversal is recognized in income in the consolidated financial statements.

2.3.7 Financial Liabilities and Borrowing Costs

Borrowings are recognized initially at the proceeds received, net of transaction costs incurred. In subsequent periods, borrowings are stated at amortized cost using the effective yield method, any difference between proceeds (net of transaction costs) and the redemption value is recognized in the consolidated statement of comprehensive income over the period of the borrowings.

The Company compares borrowing costs arising from foreign currency borrowings for Residuum Upgrading Project with functional currency equivalent borrowing’s interests and capitalizes borrowing costs by using cumulative approach in its financial statements.

2.3.8 Financial Instruments

Trade receivables

Trade receivables that are created by way of providing goods or services directly to a debtor are carried at amortized cost using the effective interest method.

A credit risk provision for trade receivables is established if there is objective evidence that the Group will not be able to collect all amounts due. The amount of the provision is the difference between the carrying amount and the recoverable amount, being the present value of all cash flows, including amounts recoverable from guarantees and collateral, discounted based on the original effective interest rate of the originated receivables at inception. If the amount of the impairment subsequently decreases due to an event occurring after the write-down, the release of the provision is credited to other income.

Financial assets

Financial assets are initially recognized in the consolidated financial statements at their acquisition costs including the operational costs. Investments intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available-for-sale in accordance with the requirements of IAS 39, “Financial Instruments”. These are included in non-current assets unless management has the express intention of holding the investment for less than 12 months from the balance sheet date or unless they will need to be sold to raise operating capital, in which case they are included in current assets. Management determines the appropriate classification of its investments at the time of the purchase and re-evaluates such designation on a regular basis.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2016
(Amounts expressed in Turkish Lira [‘TL’] unless otherwise indicated.)

2.3.11 Foreign Currency Transactions
Transactions in foreign currencies during the period have been translated at the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies have been translated at the exchange rates prevailing at the balance sheet dates. Exchange gains or losses arising from the settlement and translation of foreign currency items have been included in the consolidated statements of income.

2.3.12 Earnings per Share
Earnings per share presented in the consolidated statement of income are determined by dividing consolidated net income attributable to that class of shares by the weighted average number of such shares outstanding during the year concerned (Note 29).

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares (‘bonus shares’) to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them retroactive effect for the year in which they were issued and for each earlier period.

The revised IFRS 3 introduces a number of changes in the accounting for business combinations which will impact the amount of goodwill recognized, the reported results in the period that an acquisition occurs, and future reported results. Such changes include the expensing of acquisition-related costs and recognizing subsequent changes in fair value of contingent consideration in the profit or loss (rather than by adjusting goodwill).

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the consolidated statement of income on a straight-line basis over the period of the lease.

2.3.16 Related Parties
Related party is the person or entity related to Company which is preparing financial statements (‘reporting Company’) (Note 30).

Parties are considered related to the Company if:
(a) A person or a close member of that person’s family is related to a reporting entity if that person
(i) has control or joint control over the reporting entity;
(ii) has significant influence over the reporting entity; or
(iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
(b) An entity is related to a reporting entity if any of the following conditions applies:
(i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
(ii) One entity is an associate of the other entity or an associate of joint venture of a member of a group of which the other entity is a member).
(iii) Both entities are joint ventures of the same third party.
(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
(v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
(vi) The entity is controlled or jointly controlled by a person identified in (a).
(vii) A person (identified in (a)) has significant influence over the entity or is a member of the key management personnel of the entity or of a parent of the entity.

2.3.17 Segment Reporting
The operating segments are evaluated in parallel to the internal reporting and strategic sections presented to the organs or persons authorized to make decisions regarding the activities of the Group. The organs and persons authorized to make strategic decisions regarding the Group’s activities with respect to the resources to be allocated to these sections and their evaluation are defined as the Group’s senior managers of the Group. The Group’s senior managers follow up the Group’s activities on activity basis such as; ground handling services, airport security services, airport terminal operating and cargo and warehouse services.

2.3.18 Taxes on Income
Current and deferred income tax
Taxes on income for the period comprise of current tax and the change in the deferred income taxes. Current taxes on income comprise tax payable calculated on the basis of expected taxable income for the period using the tax rates enacted at the balance sheet date and any adjustment in taxes payable for previous periods.
Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the consolidated financial statements. Currently enacted tax rates are used to determine deferred income tax at the balance sheet date (Note 28).
Deferred income tax liabilities are recognized for all taxable temporary differences, whereas deferred income tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.
When the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority and there is a legally enforceable right to offset current tax assets against current tax liabilities, deferred tax assets and deferred tax liabilities are offset accordingly.
2.3.19 Employee Benefits

Employment termination benefits, as required by the Turkish Labour Law and the laws applicable in the countries where the subsidiaries operate, represent the estimated present value of the total reserve of the future probable obligation of the Company arising in case of the retirement of the employees, termination of employment without due cause, call for military service, be retired or death upon the completion of a minimum one year service.

Provision which is allocated by using defined benefit pension’s current value is calculated by using prescribed liability method. All actuarial profits and losses are recognized in consolidated statements of income.

2.3.20 Statement of Cash Flows

Cash flows during the period are classified and reported by main, investing and financing activities in the cash flow statements.

Cash flows from main activities represent the cash flows of the Group generated from airport ground handling services, airport construction and operating activities.

Cash flows related to investing activities represent the cash flows that are used in or provided from the investing activities of the Group (fixed investments and financial investments).

Cash flows arising from financing activities represent the cash proceeds from the financing activities of the Group and the repayments of these funds.

2.3.21 Dividends

Dividends receivable are recognized as income in the period when they are declared. Dividends payable are recognized as an appropriation of profit in the period in which they are declared.

2.3.22 Paid-in Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.3.23 Offsetting

All items with significant amounts and nature, even with similar characteristics, are presented separately in the financial statements. Insignificant amounts are grouped and presented by means of items having similar substance and function. When the nature of transactions and events necessitate offsetting, presentation of these transactions and events over their net amounts or recognition of the assets after deducting the related impairment are not considered as a violation of the rule of non-offsetting. As a result of the transactions in the normal course of business, revenue other than sales are presented as net of taxes.

2.3.24 Derivative financial instruments and hedging activities

The Group uses foreign currency forward contracts to decrease its foreign exchange position and as of December 31, 2016 and 2015, it carries these instruments at their market value in its consolidated financial statements. The Group uses its year-end market rates and interest rates to calculate the market value of the foreign exchange forward contracts. In accordance with TAS 39 (Financial instruments: Recognition and Measurement), they are defined as held for trading and classified in the income statement. Fair values of derivative financial instruments and hedging activities are determined based on market prices.

2.4 Critical Accounting Estimates and Assumptions

The preparation of financial statements necessitates the use of estimates and assumptions that affect asset and liability amounts reported as of the balance sheet date, explanations of contingent liabilities and assets; and income and expense amounts reported for the accounting period. Although these estimates and assumptions are based on all management information related to the events and transactions, actual results may differ from them. The estimates and assumptions that may have a material adjustment to the carrying amounts of assets and liabilities for the next reporting period are outlined below:

(a) Goodwill impairment tests

As explained in Note 2.3.6 the Group performs impairment tests on goodwill annually at December 31 or more frequently if events or changes in circumstances indicate that it might be impaired. The recoverable amount of the cash generating unit has been determined based on the fair value less costs to sell calculations. These calculations include certain estimations and assumptions. As a result of the impairment tests performed with the use of the above assumptions, no impairment was detected in the goodwill amount as of December 31, 2016.

(b) Impairment of intangible assets

According to the accounting policy stated in Note 2.3.4, the intangible non-current assets are shown with their net value after the deduction of the accumulated depreciation, if any, and the value subtracted from the acquisition costs. As a result of the valuation studies performed at the purchase of 100% of CGHH and Celebi GMİB shares, “Customer Relations” has been considered as an identifiable asset by the Group and shown under the intangible non-current assets. The total amount of “Customer Relations” related to CGHH is amortized over the estimated useful life of 7 years. The entire amount of “Customer Relations” for Celebi GMİB is subjected to impairment and the effect is reflected in the financial statements.

(c) Provisions

In accordance with the accounting policy mentioned in Note 2.3.14, provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when reliable estimate can be made of the amount of the obligation. In this context, the Group has evaluated the legal proceedings and damage claims raised against in courts as of December 31, 2016 and for the ones where the Group estimates a probability of losing the cases in courts, necessary provisions are accounted for in the consolidated financial statements (Note 13).

(d) Taxes calculated on the basis of the company’s earnings

In accordance with the accounting policy mentioned in Note 2.3.18, a provision is made for the tax liability of current year calculated with tax rates which are valid on the balance sheet date over the portion of period income estimated based on period results of the Group as of balance sheet date. Tax legislation of jurisdictions, in which the subsidiaries and subsidiaries subject to joint control of the Group operates, are subject to different interpretations and may be amended. In this scope, interpretation of tax legislation by tax authorities related to operations of subsidiaries and subsidiaries subject to joint control of the Group may differ from the interpretation of the management. Therefore, transactions may be interpreted in a different manner by tax authorities and the Group may be exposed to additional tax, fines and interest payments.

As of December 31, 2016, the Group has reviewed possible tax fines which may source from its subsidiaries and subsidiaries subject to joint control and has not considered to make any provisions.

(e) Unused deferred tax income

Deferred tax asset is booked where there is a probability that a tax advantage can be gained in future years.

(f) Investments made in the framework of concession arrangements in scope of implementation of IFRIC 12

Celebi Delhi Cargo, subsidiary of the Group resident in India, has concluded a concession arrangement with Delhi International Airport Private Limited (DIAL) on May 6, 2009 in order to operate in development, modernization, financing and management for 25 years of current cargo terminal in the airport located in New Delhi city of India.

Investment expenditures made by the Group in scope of aforementioned arrangement and concession arrangement signed by Celebi Nas, which is subsidiary of the Group subject to joint control and resident in India, on April 8, 2015, are recognized in scope of International Financial Reporting Interpretations Committee 12 (IFRIC 12) Service Concession Arrangements. Estimates, which are used by the Group during the application of IFRIC 12, are summarized as follows:

1. The Group has made a provision at an amount of TL 18,987,963 in its consolidated financial statements for mandatory replacement investments, which are anticipated to be realized in following years, as of December 31, 2016 (December 31, 2015: TL 12,634,604). The aforementioned provision is the discounted amount of mandatory replacement expenditures which shall be made in the following years to December 31, 2016 and its current value is calculated through using average 8.04% (December 31, 2015: 8.04%) as per year.

(*) The land plots where the stations and cargo buildings were constructed by the Group in the airports within which it operates were rented from the DHMI and other local authority. The station and cargo buildings on this land were constructed by the Group and recorded under the tangible assets of the Group as leasehold improvements. As of December 31, 2015 the net book value of these stations was TL 41,596,780. The lease contract signed by the Group and the DHMI is valid for one year and the agreement is renewed every year. The agreement is renewed automatically. The Group amortizes these station buildings over 15 years which correspond to their economic lives. If the DHMI does not renew the lease contract within this period, the Group may have to amortize the relevant leasehold improvements over a shorter period.

(**) For the detail of purchase of Celebi GmbH please refer to Note 12.

(*** Due to the apron widening works conducted by DHMI as a solution to the increasing passenger traffic at Atatürk Airport, the Company evacuated its service buildings to hand them over to DHMI in accordance with the provisions of the lease and moved into the new service buildings constructed in the area allotted by DHMI on July 1, 2014. The net book value of the investments regarding the service buildings evacuated/handed over to DHMI recognized in special expenses item as of the handing-over date is TL 7,872,903 which has been classified in expense from investment activities.

Depreciation expense for the period ended December 31, 2015 in the amount of TL 20,753,304 and TL 2,171,566 are respectively included in cost of sales and operating expenses.

There are net book value TL 6,648,830 worth of financial/leasing assets in plant, machinery and equipment as of 31 December 2015.

| Goodwill Impairment Test

The group tests goodwill at least once a year for the risk of impairment. A valuation report prepared by an independent valuation firm is based on fair value impairment test.

December 31, 2016

Ground handling services - Hungary

The recoverable value of the aforementioned cash generating unit, has been determined by taking the usage calculations as a basis. For the purposes of carrying out impairment tests, detailed forecasts for the next 7 years have been used which are based on approved annual budgets and strategic projections of the management representing the best estimate of future performance.

The discount rate used is the before tax discount rate and includes the Company specific risk factors. As a result of impairment tests performed under above assumptions, no impairment was detected in the goodwill amount as of December 31, 2016.

Goodwill from purchasing 4% shares of Celebi Nas

The Company has purchased 4% shares of Celebi Nas with ratio of 51% on January 26, 2012 by paying USD 1,000,000 (TL 1,820,300) from Sovika Aviation Private Limited which has already owned 8% shares of Celebi Nas before. The purchase was recognized in accordance with IFRS 3 ‘Business Combinations’ terms, the goodwill which has been calculated after the purchase as TL 910,723 has also been reflected in consolidated financial statements.

Goodwill from purchasing 2% shares of Celebi Nas

The Company has purchased 2% shares of Celebi Nas with ratio of 55% on December 7, 2016 by paying INR 61,705,000 (TL 1,199,363) from Sovika Aviation Private Limited which has already owned 4% shares of Celebi Nas before. The purchase was recognized in accordance with IFRS 3 ‘Business Combinations’ terms, the goodwill which has been calculated after the purchase as TL 1,794,664 has also been reflected in consolidated financial statements.

Management of the Group evaluates the synergy created by the association of Celebi Nas and Celebi Hava as one of the main results of the emergence of goodwill. By the management of the Group, subjected goodwill has been distributed over Celebi Nas by Celebi Hava as one cash generating unit.

31 December 2016

Ground handling services - India

The recoverable value of the aforementioned cash generating unit, has been determined by taking the usage calculations as a basis. For the purposes of carrying out impairment tests, detailed forecasts for the next 5 years have been used which are based on approved annual budgets and strategic projections of the management representing the best estimate of future performance.
The Group management determined the budgeted gross profit margin by taking into consideration for the previous performance of the Company and the market growth expectations. The discount rate used is the before tax discount rate and includes the Company specific risk factors.

As a result of impairment tests performed under above assumptions, no impairment was detected in the goodwill amount as of December 31, 2016.

Goodwill from purchasing of Celebi GmbH

A "share purchase agreement" was signed on February 18, 2014 between Celebi Cargo GmbH, a subsidiary of Çelebi Kargo Depolama ve Dağıtım Hizmetleri A.Ş., and Aviapartner GmbH, a company also registered in Frankfurt, Germany, for the transfer of all of the shares of Aviapartner Cargo GmbH operating in Frankfurt and Hahn International Airports in Germany in cargo storage and handling, 100% of the capital of which is owned by Aviapartner GmbH for EUR 4,459,283 (TL 13,604,381) to Celebi Cargo GmbH. The closing procedures regarding this agreement were concluded on February 28, 2014. As of December 31, 2014, negotiations are ongoing regarding the ultimate determination of the purchase price over the financial statements dated February 28, 2014 within the framework of the "Share purchase agreement". An ultimate agreement on the purchase price has not been reached by the group’s management within the frame of this agreement and the purchase readjustment amounting to EUR 562,003 (TL 1,021,102) has been included in the calculation of goodwill. As of April 30, 2014, the official title of Aviapartner Cargo was changed as Celebi GmbH and all assets and liabilities of Celebi GmbH was taken over by Celebi Cargo and the legal merger was completed as of October 30, 2014.

Goodwill of Celebi GmbH which is calculated with net asset is follows:

The recoverable value of the aforementioned cash generating unit, has been determined by taking the usage calculations as a basis. For the purposes of carrying out impairment tests, detailed cash flow forecasts for the next 5 years have been used which are based on approved annual budgets and strategic projections of the management representing the best estimate of future performance.

The Group management determined the budgeted gross profit margin by taking into consideration for the previous performance of the Company and the market growth expectations. The weighted average growth rates used are in line with the estimation stated in industry reports. The discount rate used is the before tax discount rate and includes the Company specific risk factors.

As a result of impairment tests performed under above assumptions, no impairment was detected in the goodwill amount as of December 31, 2016.
The liability is not funded, as there is no funding requirement. According to regulations in India, the Company is required to pay termination benefits to each employee in its subsidiaries and joint ventures who has completed five year of service, who is called up for military service, who achieves the retirement age, who early retires, or who dies. Total employee termination benefit liability is calculated by 15 days per year of service for the current period ended at December 31, 2016 and the liability is limited to INR 350,000 per employee. Employee termination benefit liability is calculated by estimating the present value of the future probable obligation to the employees of the group in its subsidiaries that are registered in Turkey arising from the retirement of the employees, IFRS requires actuarial valuation methods to be developed to estimate the enterprise’s obligation under defined benefit plans.

The principal assumption is that the liability ceiling for each year of service will increase in line with inflation. Thus the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Since the Group calculates the reserve for employment termination benefits every six months the maximum amount of TL 4,426,16 which is effective from January 1, 2017 (January 1, 2016: TL 4,092,53) has been taken into consideration in the calculations.

Movements in the provision for employment termination benefits are as follows:

#### Restricted Reserves

The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code (“TCC”). The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company’s paid-in capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in capital. Under the TCC, the legal reserves can be used only to offset losses and are not available for any other usage unless they exceed 50% of paid-in capital.

In accordance with the communiqué numbered II-14,1 “Communiqué on the Principles of Financial Reporting in Capital Markets” (“the Communiqué”) published in Official Gazette dated June 13, 2013 numbered 28676, TAS, the “Paid-in capital”, “Restricted reserves” and “Share premiums” should be stated at their amounts in the legal records. The differences arising in the valuations during the application of the communiqué (such as differences arising from inflation adjustment):

- If the difference is arising from the valuation of “Paid-in Capital” and not yet been transferred to capital should be classified under the “Inflation Adjustment to Share Capital”;
- If the difference is arising from valuation of “Restricted Reserves” and “Share Premium” and the amount has not been subject to dividend distribution or capital increase, it shall be classified under “Retained Earnings”.

Other equity items shall be carried at the amounts calculated based on TMS. Capital adjustment differences have no other use other than being transferred to share capital.

The amount of restricted reserves is TL 40,181,456 as of December 31, 2016 (December 31, 2015: TL 33,012,956).

(Amounts expressed in Turkish Lira [“TL”] unless otherwise indicated.)

Deferred Taxes

The Group considers the differences arising from different valuation of the financial statements prepared in accordance with CMB regulations in the calculation of deferred tax assets and liabilities. The differences mainly arise due to the different accounting of income and expenses in line with Tax Laws and CMB Accounting Standards in different periods. In accordance with the method of liabilities based on subsequent differences, the rates for deferred revenue asset and liabilities are 20%, 9% or 10%, 29.65% and 34.6% for Turkey, Hungary, Germany, India New Delhi and Mumbai respectively.

The analysis of cumulative temporary differences and the related deferred tax assets and liabilities in respect of items for which deferred income tax has been provided as at December 31, 2016 and December 31, 2015 using the enacted tax rates are as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

Currency risk

The Group is exposed to foreign exchange rate risk through operations done using multiple currencies. The main principle in the management of this foreign currency risk is maintaining foreign exchange position in a way to be affected least by the fluctuations in foreign exchange rates, in other words, maintaining foreign exchange position close to zero.

For this reason, the proportion of the positions of these currencies among each other or against Turkish Lira to shareholders’ equity is aimed to be controlled under certain limits. Derivative financial instruments are also used, when necessary. In this context, the Group’s primary method is utilizing forward foreign currency transactions. The Group is exposed to foreign exchange rate risk mainly for EUR, USD and GBP.

As of December 31, 2016, other things being constant, if the TL was to appreciate/depreciate by 10% against the USD, foreign exchange gains/losses resulting from trade receivables and payables, cash and cash equivalents and advances received and given would increase/decrease net income by TL 608,922 (December 31, 2015: TL 5,568,772).

As of December 31, 2016, other things being constant, if the TL was to appreciate/depreciate by 10% against the EUR, foreign exchange gains/losses resulting from trade receivables and payables, cash and cash equivalents and advances received and given would increase/decrease net income by TL (19,778,353) (31 December 2015: TL (16,151,563)).

As of December 31, 2016, other things being constant, if the TL was to appreciate/depreciate by 10% against the GBP, foreign exchange gains/losses resulting from trade receivables and payables, cash and cash equivalents and advances received and given would increase/decrease net income by TL (37,235) (December 31, 2015: TL (2,406)).

Interest rate risk

If other variables are kept constant, interest expense due to financial liabilities would have been either TL 349,400 higher or lower if the interest rates were 2% more or less at December 31, 2016. (December 31, 2015: TL 444,044).

Credit risk

Credit risk consists of cash and cash equivalents, bank deposits and receivables from customers exposed to credit risk. Ownership of financial assets involves the risk that counterparties may be unable to meet the terms of their agreements. These risks are monitored by credit ratings and by limiting the aggregate risk from any individual counterparty (except related parties) (Note 8).

Liquidity risk

Cash flow generated through amount and term of borrowing back payments is managed by considering the amount of unreserved cash flow from its operations. Hence, on one hand it is possible to pay debts with the cash generated from operating activities when necessary and on the other hand sufficient and reliable sources of high quality loans are accessible. The Group has long-term financial liabilities amounted TL 169,091,085 as of December 31, 2016 (December 31, 2015: TL 157,976,034) (Note 7).

**Capital risk management**

The Group’s objectives when managing capital are to safeguard the Group’s ability to continue as a going concern in order to provide returns for shareholders and benefits for other shareholders and to maintain an optimal capital structure to reduce the cost of capital.

The shareholders of the Company, in order to maintain or modify capital structure, can change the amount of dividends paid to shareholders, return capital to shareholders, issue new shares and sell assets to decrease financing needs consistent with the regulations of the CMB.

Consistent with others in the industry, the Group monitors capital on the basis of the debt/equity ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total liabilities less cash and cash equivalents and deferred tax liability. Total capital is calculated as equity, as shown in the consolidated balance sheet, plus net debt.

The ratio of net debt/equity + net debt at December 31, 2016 and 2015 is as follows:

**NOTE 32 - FINANCIAL INSTRUMENTS**

**Fair value estimation**

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

Effective from January 1, 2009, the group adopted the amendment to IFRS 7 for financial instruments that are measured in the balance sheet at fair value, this requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The Group’s assets and liabilities quantified as fair values at December 31, 2016 and December 31, 2015 are as below:

**NOTE 33 - DISCLOSURE OF OTHER MATTERS REQUIRED FOR THE PURPOSE OF UNDERSTANDING AND INTERPRETING THE CONSOLIDATED FINANCIAL STATEMENTS**

The cargo building of the Company located at Ataturk Airport (“AHL”) Terminal C in which the Company carries out cargo - warehouse operations was damaged by a fire that broke out on May 24, 2006.

As a result of the fire, goods belonging to third parties were also damaged in addition to the damage to property, plant and equipment and leasehold improvements of the Company. As of December 31, 2016 some of the owners of the goods have applied to the Company and its insurance company for compensation of their losses by filing lawsuits against the Company and via enforcement proceedings.

There are legal cases and enforcement proceedings under way: this comprises legal cases and enforcement proceedings amounting to TL 8.802.666 (Note 13) in which the Company is a co-defendant along with the DHMI; other warehouse management companies and insurance companies; and legal cases and enforcement proceedings amounting to TL 11.515.459 in which the Company is the sole defendant. Total legal cases and enforcement proceedings is TL 20.318.125.
The Company has an insurance policy regarding these commodities amounting to USD 1,500,000 which has been recorded as revenue and the whole amount of which has been collected as of September 30, 2013.

For the purpose of compensating legal claims related to the fire that broke out on May 24, 2006, the company management has decided to use another insurance policy amounting to USD 10,000,000 in a special fund created in conjunction with the DHMI and other warehouse management company in accordance with the ‘Sharing Agreement’ signed with same parties. The Sharing Agreement mentioned was established in order to deal with the consequences of legal cases and enforcement proceedings in which the Company is a co-defendant along with the DHMI and other warehouse management company.

As of March 13, 2017, 225 lawsuits with value of TL 150,162,508 (USD 42,669,501) to which the Fund Companies have been a side and which has an invoice value of TL 88,999,069 (USD 25,289,574) has been settled amicably paid to the claimants.

Negotiations regarding 11 requests, which cannot reach an agreement yet, between the fund and other claimants are still going on. The invoice value of the aforementioned requests is USD 3,977,010 and remaining part available in fund currently amounting to USD 14,6 million is managed against all the fund parties but it is anticipated that the aforementioned amount shall be sufficient for the settlement of all requests whose negotiations are still going on.

In view of the foregoing, the Company believes that all legal claims faced may be settled as part of the insurance policy collected and the fund formed. Since there are no further development which adversely affects the matters disclosed in past, the Company has not booked any provision in consolidated financial statements dated December 31, 2016.

NOTE 34 - SUBSEQUENT EVENTS

The management of the Company, on January 20, 2017, decided to raise the fully paid shares of Celebi Kargo from the amount of TL 30,000,000 to TL 114,000,000 and hence, it was decided that the amount TL 84,000,000 raised in cash to be participated corresponding to 99,97% shares of the Company by using the priority rights and the amount to be paid according to the articles of agreement of the participated Company and board of directors’ decisions. The amount TL 21,000,000 which is the portion of the payments to be made in the consequence of the aforementioned capital increase was realized on January 20, 2017, and TL 62,972,000 on February 14, 2017.
